WANTS \$7,000 OF BINFORD ESTATE

Boy Who Plowed on Farm Near Carthage at Age of Seven, Now a Man, Files Claim in Court.

HAD AN UNDERSTANDING

Harry M. Hudson of Greenfield Says Late Jared P. Binford Promised Him 40 Acres of Land.

Some interesting family history is contained in a claim filed this afternoon by Harry M. Hudson in the circuit court against the estate of the late Jared P. Binford. The claim is for \$7,000 and is against Mrs. Ella M. Melvaine, administratrix of the estate. Mr. Binford died about two months ago and left his estate to Mrs. Melvaine. His wife preceded him to the grave by a few weeks.

Hudson is a resident of Greenfield and the claim is for services covering a period of years from 1885 to 1914. The complaint states that he went to the Binford home, an orphan, when seven years old and began working as a farm hand. He states that he plowed in the field with the rest of the men and that Mr. Binford even cut off the handles of the plow to accommodate the small stature of the claimant.

Hudson, according to the complaint, stayed at the Binford home until he was twenty-one years old, and up until the time he was eighteen years of age never received any pay with the exception of his room and board. He states that because of his work on the farm he was compelled to remain away from school and only went when the work permitted.

The complaint states that Hudson and Binford had an understanding that if Hudson would remain with him until he was twenty-one years old he would be given forty acres of land when Mr. Binford died.

Mr. Binford left no children, but the will did not provide for the forty acres of land for Mr. Hudson. It is stated that Mrs. Melvaine received most of the Binford estate. She was also raised at the Binford home. Hudson bases his claim on the value of forty acres of land and demands \$7,000.

The complaint was filed by John H. Kiplinger of this city, who, with Henley and Baker of Indianapolis, represents the claimant.

ELEVEN DIE FROM HEAT.

(By United Press.)

Pittsburg, Pa., June 12.—With eleven more dead in Western Pennsylvania another scorching day was promised today.

NEW YORK IS HOT.

New York, June 12.—Hot, muggy weather with the temperature never lower than 75 gave New York a most uncomfortable night last night.

TO DECORATE GRAVES.

The W. R. C. will meet at the court house Sunday afternoon and go to East Hill cemetery to decorate the graves of their deceased members.

Atwell Morgan, administrator of the estate of Owen Kincaid, deceased, has filed a petition in the circuit court asking permission to sell the real estate to pay the debts.

Word has been received in Carthage of the death of John Street, in Fall Brook, Cal. Mr. Street was formerly of Carthage and left there about twenty-five years ago. He was a member of the Odd Fellows lodge of Carthage.

WILL KEEP STREETS CLEAN

Five Garbage Receptacles are Placed in Carthage

Five galvanized iron garbage receptacles have been placed on the streets of Carthage. The receptacles were furnished from the funds raised by tag day and the citizens of Carthage are making an effort to educate the people to keep the streets clean. The town council has instructed the marshal to make provision for emptying the boxes whenever necessary. Other applications have been made for receptacles and if the first venture proves a success the council may provide others. The public is asked to throw all waste paper and refuse in the boxes.

HIT HER IN EYE WITH STOVE WOOD

Phillip Robbins Tells Mayor Bebout he Did it in Self Defense, But Gets \$1 and Costs

HAD MONEY; WOULDN'T PAY

Phillip Robbins, of North Spencer street, claimed his wife would not cook for him and when he fussed with her she came at him with a stick of stove wood. To protect himself, Robbins hit her a lick, with the result that Mrs. Robbins carried a "beautiful" black eye. The black eye cost Robbins one dollar and costs in police court last night and rather than pay his fine he went to jail for eleven days.

This was the story told Mayor Bebout. Robbins was charged with assault and battery by his wife and entered a plea of not guilty. He employed a lawyer to fight the case and stated that he struck his wife in self defense. The affidavit was filed by Mrs. Robbins. Robbins had the money to pay his fine, but refused to do so.

WILL START NEW BUILDING AT ONCE

Rushville Co-operative Telephone Company Will Make Complete Metallic System of Milroy Plant.

NEW SWITCHBOARD AND CABLE

The Rushville Co-operative Telephone company today finished installing an additional unit consisting of 100 telephones to the switchboard. This is in keeping with the policy of the company since additions were made to the system a few months ago so that all patrons could be supplied with individual telephones.

The company will begin tomorrow on the extensive improvements that are contemplated on the Milroy system. The company purchased a lot in Milroy several months ago and active preparations to erect a story and a half frame telephone building for an exchange will be started at once. The building will include a residence for the operators of the exchange. The Milroy plant will be completely overhauled and a new switchboard installed. There will also be added a lot of new cable so as to make it a complete metallic system. When the Rushville company first took hold of the Milroy plant there were twenty-five subscribers. Now there are two hundred and fifty.

WHOLE CITY TO SEE ELKS GAME

Prospects Are All Business Houses Will be Closed During Benefit Contest Next Friday

FACTORIES MAY SHUT DOWN

New Committees Appointed and Over Thousand Tickets Placed on Sale—Big Parade

With a thousand tickets on sale, preliminary details practically complete and an organized movement started for the closing of the business houses and possibly the factories from three until five o'clock during the game next Friday afternoon, prospects for the Elks benefit ball game which will be played at the South Main street ball park indicate that it will be the most pronounced success of any local undertaking in many years.

Every one wants to see the sport. It has seldom been the case that as much interest has been evinced in a ball game as that which has been manifested in the coming game between the Marrieds and Singles. Much speculation has been indulged in whether the name of the latter team will have anything to do with its batting average. But there is a disposition in some quarters to believe that the "home run" proclivities of marrieds will more than offset that because of their recognized ability and experience in this department of the game.

All of the professional men will go to the game, and if all of the stores, restaurants, barber shops and business houses of all description will close, it may be that the factories will be shut down for a couple of hours, according to reports, to give their men an outing. Anyway, the impression is that there will not be a corporal's guard left down town when the ump's shouts "play ball."

The parade from the club rooms alone should attract the attention of the entire city and there will doubtless be a large crowd packed along the "line of march." The press agents for the Elks say that the stunts at the ball park, aside from the game, will be "well worth the price of admission," and the funny part about it is that every one believes it.

Tickets have been placed on sale at Betker's Shop and Brann's grocery. They may be purchased from any Elk as each member has ten tickets and he is obliged to sell them. The price of admission is twenty-five cents to everyone and the grand stand will be free. It is strongly advocated and urged that every person buy their tickets at once as there will be such a jam and confusion when the parade enters the ground from persons wishing to get a choice seat.

A finance committee has been appointed to assist Treasurer Will Brann and Assistant Treasurer Charles G. Offutt in counting the money and checking up the tickets. This committee will have complete charge of the gate and will see to it that no one gets by without a ticket. This committee is composed of the following: Francis Moor, Earl H. Payne, Theodore Heeb, Fred Lightfoot, Ralph Payne, A. B. Irvin and Lewis M. Sexton.

The most important committee, however, is a committee on entertainment. The boys no doubt will feel like eating a square meal after the game. This committee will provide an elaborate fried chicken dinner in the evening. It consists of the following: John W. Anderson, F. C. Buell, Dora N. Hilligoss, O. M. Hart.

ALLEGES HORSE HAD THE SWEENEY

Andrew J. Province, a Mt. Summit Merchant, Testifies in His Case Against George H. Bell.

MARE "TOUCHY" ABOUT NECK

"David Harum" Horse Wit is Out-Growth of Sale Made February 27, 1912.—Other Court News.

The case of Andrew J. Province, a merchant of Mt. Summit, against George H. Bell, a prominent farmer of near Mays, in which \$200 is demanded, alleging the misrepresentation in the sale of horse, started in the circuit court this morning before a jury, but was continued until a future date this afternoon, when it was shown that Mrs. Millie Odene, mother-in-law of Province was owner of a half interest in the horse. An amended complaint was filed. Province bought the horse at the Bell sale February 27, 1912.

He alleges that the horse was sold to him to be sound and was warranted by Mr. Bell. He bid the horse off at \$224 and took it to Mt. Summit. Mr. Province was the first witness. He testified that the horse was hitched with another three days after the sale and that instead of proving gentle and sound the animal refused to pull and was found to be suffering from sweeney.

Mr. Province stated that the mare showed signs of having had her shoulders treated as they would flinch everytime anyone touched them and that later on would fight when the tender spots were touched. Mr. Province stated that the horse was not worth what he paid.

He told of working the animal three times. The first time he hauled a load of corn, the second a load of coke weighing 1,030 pounds and the third time a load of wood. He stated that on each occasion the mare refused to pull her part of the load and said it was due to the fact that the animal was suffering from sore shoulders.

In the opening statement the defense stated that they would show that the mare was sold later on for more money than Province paid in the first place. The plaintiff is represented by B. F. Miller, Eugene Miller and John A. Titsworth and the defendant by Samuel L. Trabue and Will M. Sparks.

The jury hearing the case is composed of the following: C. F. Wagoner, John E. Booth, George Havens, Ira Harcourt, W. R. White, John Overleese, Luther Caldwell, Elmer Morris, William E. Pitman, Daniel Newkirk, Vern Smith and William H. Fisher.

Judge Megee this morning granted the motion for a change of venue in the damage suit of Larry B. Harris against the P. C. C. & St. L. railway. The motion was filed by the defendant company and the case was sent to Bartholomew county. Harris demands \$600, alleging that the railway was responsible for the loss of two valuable mules.

The case of John Hinchman against S. H. Colter and Son, has been dismissed on motion of the plaintiff. It was an account suit in which \$271.11 was demanded.

The Rev. A. W. Jamieson will preach on the subject "Severed from Christ" tonight at the United Presbyterian church.

The funeral services of William Richey will be held Saturday afternoon at three-thirty o'clock at the late residence in Milroy and burial will take place in the Milroy cemetery.

WILL POE NOT PUNISHED

Wife Will not Prosecute Shelbyville Man Arrested Here

Wm. Poe, who was arrested here last week and returned to Shelbyville to face a charge of deserting his wife and two children, was released on his own recognizance yesterday when arraigned before Judge Blair in the circuit court. Mr. and Mrs. Poe talked matters over and she informed the court that she did not desire to push the case as they would again live together. He was allowed to go with the understanding that he would conduct himself properly.

CRITICAL STAGE REACHED TODAY

Once Again, it is Announced, Mediation Will Succeed or Fail Within a Few Hours.

MEXICANS ARE NOT SO HAPPY

(By United Press.)

Niagara Falls, Ont., June 12.—Efforts to find a solution for the pacification of Mexico through mediation reached a critical stage today. On the conferences which are to follow will rest success or failure.

A full conference is scheduled for this afternoon when the American delegates will again meet with the three Mexican delegates before the mediators.

There was optimism at American headquarters and the belief that substantial progress had been made in the conference so hastily assembled late yesterday. This was not reflected on the Canadian side, however.

The three South American mediators today declared they would not withdraw from their stand that Carranza must submit to an armistice before they would officially admit his representative to the conference.

ENCOURAGING SAYS WILSON AS USUAL

Customary Expression Concerning Mediation is Forthcoming From White House Today.

CARRANZA TO PARTICIPATE

(By John E. Nevin.)

(By U. P. Staff Correspondent.)

Washington, June 12.—The White House today officially announced the Mexican situation as "very encouraging." Following a conference with the president, Secretary Tumulty said:

"The president authorizes me to say that the Mexican situation so far as mediation is very encouraging. The outlook is every favorable."

Further than this Secretary Tumulty would not go. He let it be known, however, that the president has received official word that Carranza is to participate in mediation. It is understood Justice Lamar let the president know today that real progress is already being made on the terms of the peace protocol.

Mrs. Frank Wooster, who underwent an operation some time ago at the Sexton sanatorium for gall stones, was able to be taken to her home yesterday. Mrs. Wooster is getting along nicely.

RUSH WILL HAVE BIG DELEGATION

Sixth District Convention at Cambridge City Next Tuesday will be in Nature of Rally.

COUNTIES ARE ENTHUSIASTIC

Judge D. W. Comstock of Richmond Endorsed For Nomination and May be Convention Choice

Republicans of Rush county are looking forward with much anticipation to the sixth district convention which will be held at Cambridge City next Tuesday to nominate a candidate for congress. Judge D. W. Comstock has been prominently mentioned for the nomination.

Efforts are being made to take a large delegation from Rush county and indications now are that success will crown the efforts of the county committee and others. The district convention will, in addition, serve the purpose of a district rally. Preparations are being made for an immense crowd as all of the counties have sent word that they will send a big delegation besides the accredited delegates to the convention.

Train connections with Cambridge City for Rush county persons are rather inconvenient as they will have to leave Cambridge City the middle of the afternoon on the Pennsylvania if they wish to return directly to Rushville. Many, however, are planning to return by way of Connersville, leaving Cambridge City by an L. E. & W. train which arrives in Connersville at 6:50 o'clock.

Although it is not certain, it seems to be the opinion generally that Judge Comstock will be the nominee of the convention. The enthusiastic endorsement which has been given him by most every county in this district makes him look like the choice of the rank and file of the Republicans.

The district convention at Cambridge City will convene at 10:30 o'clock. Each county will have the following representatives:

Fayette, 11; Franklin, 7; Hancock, 10; Henry, 18; Rush, 14; Shelby, 15; Union, 5; Wayne, 26.

Following the convention Wayne and Fayette will hold a convention to nominate a joint representative, probably a Fayette man, and Wayne and Union will hold a convention to nominate a joint senator.

"I believe Judge Comstock is the ideal selection for the Republican congressional nomination," said P. J. Lynch, of Newcastle, sixth district chairman, in a recent interview. "He has an unimpeachable record, is a man of brilliant attainments, a splendid orator and one of the most accomplished." Continued on Page 5.

"Safety First"

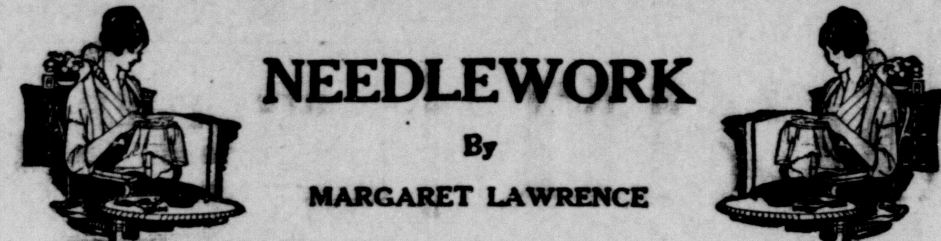

This is the modern cry many legislative bodies are taking up and writing into law.

"Safety first," is the rule of the wise shopper who takes nothing for granted.

First of all she reads the advertisements in The Daily Republican weighing the claims side by side and then deciding for herself which fit her needs.

NEEDLEWORK

By
MARGARET LAWRENCE

DAINTY AND ATTRACTIVE UNDERWEAR
DESIGNS FOR SUMMER WEAR

Dainty underwear appeals to the eye of every woman and such lovely and attractive things may be made from handkerchief linen, fine lawn, batiste, cross-barred muslin, cotton crepe, China silk or crepe de Chine. These may be effectively trimmed with hand embroidery, bits of lace and ribbons.

Hand embroidery is a very satisfactory trimming for underwear as it launders so well and will often outwear the garment itself.

Pattern 14133, is a design suitable for embroidering a chemise or corset-cover. By omitting the flower in the center, it may be used on a front closing garment. The small flowers and leaves should be developed in solid work and eyelets, and the large flowers and scalloped edge in button-hole stitch. The price of this pattern is 15 cents.

Border 14134, which is of the same design, may be used on the bottom of the chemise or combination. A simple dotted border makes an attractive edging for the neck and sleeves of a nightgown. The border shown here is 2 1/2 inches wide and 3 yards and 4 corners are contained in the pattern. This should be developed in solid work or eyelets and is appropriate for use on underwear, dresses, neckwear, negligees and children's clothes. This pattern is 10 cents.

When using a scalloped border on a curve, slash both edges of the paper at frequent intervals, close to the design. This allows the paper on the outer edge to spread and that on the inside curve to overlap. The pattern should be firmly basted in place before transferring the design. Guaranteed, hot-iron transfer patterns will be supplied to readers upon receipt of price.

A CHIC SUIT OF LINEN IN THE FAVORED
WHITE AND BLACK COMBINATION

Quite the most charming frocks are being designed for this season. There are, however, few furbelows and "fixins"; effects depend upon simplicity of cut and quaintness of materials.

The flowered cottons, in Dolly Varden and old fashioned garden posey designs are even better suited to small frocks than to "grown-up" designs although they are most pleasing for both.

A peasant, slip-on frock is illustrated in 8330; it is finished with a casing at neck, sleeves and hem through which ribbons are run to gather it in a trifle. If desired the casing may be arranged at the low French or the empire waist-line. A spotted cotton voile in pink and white is effectively relieved here with the tiny bows of black velvet ribbon on neck, sleeves and hem.

For a child of four, 1 1/2 yards of 36-inch crepe or voile is required.

The attractive lines of the second design make it especially good for linen or one of the heavy cottons. Ivory white linen is used here with collar and cuffs of black and white striped taffetas; a bias band of the black taffetas, drawn through worked eyelets serves to close the coat.

While linen is excellently suited to this model it is also appropriate for taffetas, gabardine or serge. Moire, which is being used so generally just now, would make up effectively too.

For size 36, this suit requires two yards of 42-inch material for the coat (8345), and 2 3/4 yards of the same width for the skirt (7814).

No. 8330, sizes 1 to 6.

No. 8345, sizes 34 to 42.

No. 7814, sizes 16, 17 and 18.

Each pattern 15 cents.

To obtain either pattern illustrated fill out this coupon and enclose 15 cents in stamps or coin. Be sure to state number of pattern and size, measuring over the fullest part of the bust. Address Pattern Department, care of this paper.

HAVE DARK HAIR
AND LOOK YOUNG

Don't stay gray! Nobody can tell when you darken gray, faded hair with Sage Tea and Sulphur.

Grandmother kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Hair Remedy" you will get a large bottle of this old-time recipe, ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, itchy scalp and falling hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur, because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and abundant.

We Are Still Selling Buggies....

and have every style buggy known to the best vehicle builders in the country. We have large, roomy buggies that are low down and easy to get in and out of and then we have them for the young folks (we don't mean baby carriages) and middle aged people. In fact, we have buggies to meet every requirement of all kinds of buggy users. There is no use for us to tell you of their quality, perhaps you have already found that out by using one, or if not you can ask your neighbor and he will tell you how they wear. You take no chances when you buy from us because we guarantee every buggy we sell and guarantee it an honest one, and one that is always good. We believe that an honest guarantee gives us the good will of our customers and when a merchant loses the good will of his customers he is flirting with the commercial undertaker. Let us fit you out with your next buggy and you will always be glad you did it.

ON and OFF the SCREEN

HERBERT RAWLINSON.

SCENE FROM "THE SONG IN THE DARK."

Herbert Rawlinson, the popular film hero, has had an interesting career. Born in England, he came to Canada to become a merchant and ended by joining a road show. This gradually led to a career in the movies.

Arthur Mackley, the sheriff and director of the "Broncho Billy" motion pictures, is now appearing in Mutual movies. He is hard at work at Los Angeles with Courtenay Foote and Irene Hunt on a two reel western drama, "The Return of Colonel Clauson," by Birdsell Briscoe.

Mr. Mackley is soon to attempt a novelty in motion picture production in the form of a two reel subject, in which for two-thirds of the reel there is but one character visible on the scene, this character being played by Mr. Foote, a former Vitagraph star. The picture is "The Stiletto," by F. E. Woods.

"The Sea Gull" is a picture of great scenic beauty and Indian romance. An Indian brave, infatuated with a beautiful young squaw, takes her to his wigwam. She tries by treachery and chicanery to replace his first wife, the mother of his child. Fate reveals to him her real nature in contrast to the woman who has been his ever faithful helpmate, and he is glad she has been saved to him and their child.

"Putting One Over" is the fourth chapter in the active life of "Dolly of the Dailies," by Acton Davies. The Reform league is fighting the Union Realty company. The latter decides to bribe the reformers, who appeal to the Comet for advice. Dolly calls on the realty company as the representative of the reformers, gets a check for \$5,000, is recognized, but escapes and puts over a big "scoop," bringing about the downfall of the crooks.

PLANS GREAT SUBMARINE.

Navy Will Build Boat With Batteries Like Destroyers.

A new type of armed submarine boat which promises to displace the torpedo boat destroyer and revolutionize naval warfare has been developed in the navy department at Washington.

Department experts propose to build a seagoing submarine of about the size of the present destroyer, but considerably larger than existing submarines. It will have a speed of twenty knots on the surface and twelve to fourteen knots when submerged and will have the double function of engaging in under water attack and in taking part in action on the surface.

The new submarine will carry a disappearing battery of three or four guns of four or five inch caliber in addition to the usual torpedo tubes. The guns can be raised above the deck and lowered beneath waterproof shutters when the vessel is under water.

HAVE BALLOONS ENTERED.

Austria and Belgium Will Be Represented In Big Race.

Austria and Belgium each will have two balloons entered in the international race for the James Gordon Bennett trophy, to start from Kansas City Oct. 6 next, according to an announcement by George M. Meyers, president of the Kansas City Aero club.

French naturalists have discovered a new species of elephant in Africa, smaller than known types and with shorter trunks, longer necks and no tusks.

Amusements

The Princess will show a two reel Lubin feature "A Mansion of Sobs" for the first picture tonight. It is a sensational society drama and tells a very clever and novel story. The other is a Biograph comedy entitled "Skelley's Birthday." Both are said to be exceptionally good pictures.

The Gem will show a Victor drama "Scooped by Cupid" for the first picture tonight. J. Warren Kerrigan and Cleo Madison are featured and it is said to be a clever production. It is a newspaper story and cupid wins in the end. The other is a two reel Imp feature "Out of the Far East." Leah Baird and Frank Crane are featured. It is said to be a beautiful society drama.

Sound in a Fog.
It has often been noticed that on wet and foggy days sounds are heard at a greater distance than on clear, fine days. It was Tyndall who explained the reason for this. He noticed that the distance at which the sounds of foghorns, whistles and shots could be heard varied from day to day from two to twelve miles. The cause of this difference is found in the degree of homogeneity of the air. On a foggy or snowy day the air may be perfectly homogeneous; this permits sound to travel a great distance. In clear weather the air may be composed of vertical layers of differing consistency, and the sound waves are reflected from the surfaces of the layers. Probably they are also refracted in passing through the several layers. Currents of warm ascending air form in one place and currents of cold descending air form in others. Thus the atmosphere may be very transparent optically and very opaque acoustically. —New York World.

Dew and fog both indicate fine weather; while remarkable clearness of the atmosphere is one of the most characteristic signs of coming rain.

REPUBLICAN CALL

**For Congressional Convention of the
Sixth District.**

The Republicans of the Sixth Con-
gressional District of Indiana will
meet in delegate convention in Cam-
bridge on June 16, 1914, at 10:30
o'clock for the purpose of selecting
a candidate for Congress for the
Sixth Congressional District. The
total number of delegates to said
convention will be 106, apportioned
to the several counties, comprising
the district, as follows:

Fayette	11
Franklin	7
Hancock	10
Henry	18
Rush	14
Shelby	15
Union	5
Wayne	26

By order of Republican State Com-
mittee, P. J. LYNCH,
District Chairman.

Judge Comstock

Judge D. W. Comstock of Rich-
mond, past commander of the de-
partment of Indiana, G. A. R. a
jurist of some note in Indiana, is
being urged to become the candi-
date for the nomination for con-
gress in this district at the hands of
the Republicans when they meet in
Cambridge City next week. He ap-
parently has a large class of admir-
ers.

Regarding the candidacy of Judge
Comstock the New Castle Courier,
one of the most influential Republi-
can newspapers in the district, says
editorially:

"The endorsement of Judge Daniel
W. Comstock for the Republican
nomination for congress in the Sixth
district by the Wayne county Re-
publican convention will meet with
heartily approval in all parts of the
district. Judge Comstock recently
retired from the appellate bench
where he served for several years
with distinction. He is a veteran of
the Civil war and a past command-
er of the department of Indiana, G.
A. R.

"Judge Comstock is a staunch and
steadfast Republican and has never
wavering in his support of the prin-
ciples of the party and its nominees in
county, state and nation. As a candi-
date for congress he would make a
dignified, forceful and effective cam-
paign and should be elected he
would serve the district with honor
and credit.

"The congressional convention will
meet at Cambridge City on June 16
and the Wayne county delegation
will go to the meeting with several
strong arguments as to why its candi-
date should receive the honor,
which in these days of an apparent
political revolution as a result of the
general and wide-spread dissatis-
faction over the new Democratic
laws, cannot be looked upon as an
entirely empty honor. No man has
the nerve to stand up and predict
that a Republican will not be elected
to congress from the Sixth district
this year and in case one is the party
and the people would never have
cause to regret that Judge Comstock
was the man to beat Finly Gray."

that time we are thoroughly ripe

But speakin' of automobiles, I heard

hay. He used the tire that way for
several weeks. If he's not a fellow

**ROBERT OWEN
NOT SOCIALIST**

James E. Watson Declares he Be-
lieved in Right to Own and Enjoy
Private Property.

IS NOT SOCIALISTIC IDEA

Makes Principal Address at New
Harmony Centennial—Posey
County Day is Celebrated.

New Harmony, Ind., June 12.—
Posey county day was celebrated to-
day at the centennial here under the
direction of Captain Ribeyre. Major
G. V. Menzies will speak tonight. This
afternoon there was a horse show
and this morning a floral automobile
parade and band tournament for
Posey county musical organizations.

Yesterday was a day for fraternal
orders. Thousands of people thronged
the sidewalks and automobiles
made the broad streets impassable.
Brass bands and parades of lodges
had an important part in the day's
proceedings.

Speaking on fraternalism in rela-
tion to New Harmony and the idea
which caused its founding, James E.
Watson of Rushville delivered the
main address last night. He attack-
ed the principles of socialism, de-
claring that the Owenites were not
socialistic in their belief so much as
they were in trying to carry out the
principles of modern fraternalism.
He said in part:

"It is peculiarly fitting that one
day of this celebration should be de-
voted to fraternalism, for both the
Rappite and Owen propaganda had
as their ultimate object the equality
of man. However, neither of these
attempts at equalization was based
upon the theories of modern social-
ism.

"Robert Owen was not a socialist,
as that term defined by Karl Marx
and Frederick Engels and their fol-
lowers. He believed in the right to
own and enjoy private property; So-
cialism does not. He believed in the
family, in the home, in marriage and
the rearing of children by parents,
and socialists do not. He believed in
a constitutional government and in
the representative character of our
institutions; modern Socialism be-
lieves in neither.

"The whole of the proposed system
of Socialism, as taught by all its ad-
herents of whatever school, rests up-
on the doctrine of economic deter-
minism. And what is economic deter-
minism? It means in a word that all
the relations of life, of whatever
character, are absolutely determined,
are finally and irrevocably fixed, by
the distribution of the means of pro-
duction and the methods of trans-
portation. It is rank materialism
pure and simple.

"What is the fatal weakness of the
entire socialistic philosophy? Mani-
festly that it inverts and utterly per-
verts all the forces of nature. It places
the material above the spiritual,
in fact, denies the very existence
of the spiritual. What is the only
tenable doctrine of equality? Simply
this: The fatherhood of God and
the brotherhood of man. The only
source of a true equality is not ma-
terial, but spiritual. It springs not
from man, but from God."

LORIMER BANK CLOSES DOORS

LaSalle Street Savings and Trust, of Which Former Illinois Senator is Head, Quits Business.

BANK EXAMINER EXPLAINS

Says he Found Conditions so Bad he Gave Officials Time to Get Mil-lion—They Couldn't.

(By United Press.)

Chicago, June 12.—The LaSalle Street Trust & Savings bank, popularly known as William Lorimer's bank, one of the largest in Chicago, closed its doors today and was taken over by the state auditor who said that following an examination the bank was hopelessly insolvent.

A crowd of 1,500 excited depositors soon thronged the street. A man appeared at the twelfth floor of the bank building and deliberately kicked out a large pane of glass. The glass fell into the crowd and a dozen persons were injured. The police could not find the man.

William Lorimer, who once sat in the United States senate, is president of the bank.

Three smaller banks were closed simultaneously. They were the Broadway State bank, the Ashland-Twelfth State bank and the Illinois State bank. All were correspondents of the Lorimer bank. These probably will be permitted to reopen soon.

"The LaSalle street bank has been watched for over six months," said State Examiner Hawkins. "I came here yesterday and found conditions so bad that I gave the officials until nine o'clock today to produce one million dollars to prepare for any emergency. I took charge when they failed to get the money. The Corn Exchange bank would not handle their checks."

The funeral services of Benjamin Stewart, who died yesterday at his home in Carthage, will be held Saturday morning at ten-thirty o'clock in the Center church conducted by the Rev. S. G. Huntington. Burial will take place in the church cemetery.

The funeral services of Mrs. Chas. Boyd will be conducted tomorrow afternoon at three o'clock at the Lick Creek church. Burial will take place in the church cemetery.

Reversed.

This may be a new one to some of our readers: Enter into the only drink dispensary in the dusty town an engineer on an examination trip. A small crowd surrounds a happy looking prospector who is setting them up. One man informs our engineer, "Jim just struck the thin edge of an ore body on his Red mountain prospect to-day, and he's feeling mighty good." Then follows an introduction to Jim, who declares with emphasis, "Yes, sir, I am within just three feet of a million dollars." A year later, happening into camp again, our engineer encounters Jim, sitting dejectedly on a bench in front of the same dispensary. After a drink in reply to an inquiry about the great ore body Jim stated with sad emphasis, "Partner, I'm a million feet from \$31" — Engineering and Mining Journal.

SHOULD BE THE CHALLENGER

Winner of Preliminary Matches Between Different Countries Meets American Team For the Trophy in the Late Summer—Antipodeans and Canadians May Play in West.

Tennis players representing the cream of seven nations will contest in the 1914 Davis cup matches to be held in this country and abroad, and definite arrangements are now under way to make this the best season ever experienced in international competition.

England, Australia, Germany, Canada, France, Belgium and the United States will be represented in this year's Davis cup matches, the first six being the challenging nations.

It is generally thought that Australia will be challenger for the cup when the final round is reached, but there may be a few surprises in store. Canada drew Australia in the preliminary tie, but the northern players are not discouraged, and they look forward to the match with pleasure. Canada disposed of both Belgium and South Africa last year and lost the matches with the United States.

nary tie played in that section. R. P. Powell, one of the best of the Canadian racket wielders, and B. P. Schwengers both favor Vancouver or Victoria for the matches.

Australia has officially named its Davis cup tennis team as the players are on their way abroad, and a number are on their way to the scene of the Davis cup matches. From Melbourne comes the report that Anthony F. Wilding, the world's greatest player; Norman E. Brookes, Alfred W. Dunlop and Stanley N. Doust will make up the team. The sailing of A. W. Dunlop was to have been delayed, owing to the burning of the Colosseum, one of the drapery stores owned by the company in which Dunlop is a director. But at last the last minute Dunlop decided to sail on the original date and did so.

Among the leading players in the 1914 matches will be J. C. Parke, England, the great Irish player, who has been ranked by many as being on a par with our own Maurice E. McLoughlin, champion of the United States; H. Kleinsroth, the German; Anthony Wilding and Stanley Doust, Australia; R. B. Powell, Canada, and our own Davis cup stars, Maurice McLoughlin, R. Norris Williams and Wallace E. Johnston.

The players who will probably be selected to represent the various nations are as follows:

United States—McLoughlin, Williams, Johnston, Hackett.
England—Dixon, Lowe, Barrett, Parke.
Canada—Schwengers, Powell, Mayes, Foulkes.
Australia—Wilding, Brookes, Dunlop, Doust.
Germany—Rahe, Kleinsroth, Freitzhelm, Kreutzer.
France—Desouzis, Gobert, Laurentz, Germot.

BITS FROM THE BOXING WORLD

Phil Bloom After a Match With Joe Rivers.

KNOCKOUT BLOW'S DEBUT.

A Sign of Progress in the Art of Pugilism—Was Unknown Till the Days When John L. Sullivan Reigned Supreme—Government Should Supervise the Clubs in This Country.

In site of his recent defeat at the hands of Leach Cross, Phil Bloom, the clever New York lightweight, is not in the least discouraged and is after a match with Joe Rivers. Bloom thinks that Rivers' style will be easy for him

PHIL BLOOM.

and expects to win on points, if not over the knockout route.

While still a youngster, Phil has had several years of ring experience and knows the game from A to Z.

George Chip, Eddie McGoorty, Jack Dillon, Mike Gibbons, Bob Moha and several others will be interested to know that Jimmie Clabby and Billy Murray are about to engage in a battle for the "middleweight championship of the world."

Recent victories in boxing bouts have started a controversy anent the knockout blow. The knockout blow, which is administered by reaching the point of the jaw or jugular vein with enough force to temporarily paralyze the nerve, is practiced by nearly every boxer who engages in a contest nowadays. The blow is a sign of progress in the art of pugilism. Thirty years ago it was practically unknown. In 1880, when John L. Sullivan began his knockout career with the gloves, the blow was first brought to public notice. In all of the big ring contests in olden times the principals were wont to last much longer for the reason that they knew of no such decisive method to put an opponent to sleep. Instead of trying to reach an opponent's jaw they used to batter one another's eyes and noses. Those were the days of bare knuckle, skin and small glove fights. As a general result a fighter who could slowly but surely blind an opponent won when his rival's seconds threw up the sponge or their man fell from sheer exhaustion.

The leg work, scientific blows and methods of defense employed by boxers nowadays were unknown in the old days, which goes to prove that the sport has undergone vast improvement in every way. The old battles in unfrequented places, on barges and at resorts out of reach of the law were long drawn out as a rule and in many cases indecisive. Had old time fighters known of the knockout blow as delivered nowadays the majority of the ring contests would have been much more satisfactory to onlookers. Then again, the better element has become interested in boxing and the toughs and thugs have been gradually pushed to the wall by the high class of patrons at the various clubs. The only thing that remains to be done to perfect the game is the establishment of a governing organization, which can control both fighters and clubs, and incidentally weed out the fakers and shady characters who now and then hurt the game.

NEW ENGLISH INVASION.

Star Soccer Players Coming to Tour the Country.

According to a letter received in Philadelphia, all arrangements have been completed to bring two professional English soccer teams to this country during the season of 1915. The teams will be the champions and the runners up of the present season.

Games will be played in all of the large cities of this country and Canada. Whenever possible they will play with representative teams of this country, and otherwise they will play against each other.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

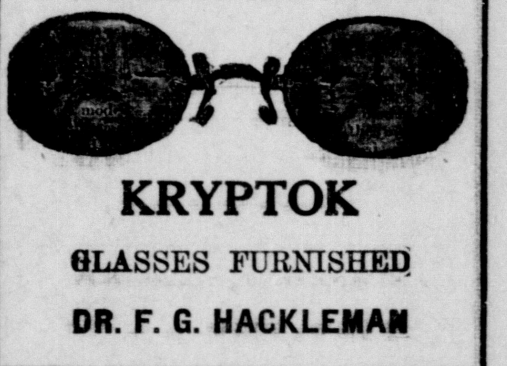

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Weak Folks Made Strong

People ask us for a remedy that will make them strong again—

There's no such medicine on earth. Good food, plenty of it, properly digested, is what makes strength.

But we have a remedy that will make you hungry three times a day—so hungry that you can hardly wait for mealtime.

That's just what you weak folks need—if you could just get a good appetite again. Nature would do the rest for you.

We know that Penslar Appetizing Tonic

is just the thing to build you up by making you eat. The formula is on the label—the makers want people to know what is in it. Nothing strong, nothing harmful, just a scientific appetizer made by a great firm of chemists. The price is \$1.00.

COMMISSION FORM IS FOUND CHEAPER

Test by Census Bureau Shows 61 Out of 69 Cities Ares Less Expensive in 1912.

TOTAL OF 195 ARE OBSERVED

(By United Press.)

Washington, June 12.—Of 195 cities in the United States having more than 30,000 population, 69 have adopted one of the several commission forms of government, discarding mayors and city councils, according to the census bureau statistics made public today. No Indiana cities are included in the list.

The most significant feature of these figures is that 61 of the cities were run in 1912 at less cost per capita than the average expense of the 195 cities under consideration.

This makes it possible for us to offer you from our mammoth stocks, new Spring and Summer merchandise at Prices that equal almost HALF their original ACTUAL WORTH.

Here's the Reason for the Unmerciful Sacrifice Sale

SOUND BUSINESS JUDGMENT ABSOLUTELY DEMANDS THIS FEARLESS RESOLUTION TO SACRIFICE OUR OVERSTOCK OF MEN'S AND BOYS' CLOTHING AND FURNISHINGS. CONDITIONS AND CIRCUMSTANCES have combined to not only make this sale advisable, but absolutely necessary. During the past season, for unaccountable reasons, there has been a country-wide repression or depression of business. While the clothing and furnishing trade has suffered the most of all. The backward and unseasonable weather has clogged the channels of trade—to cure the result of these conditions we must accept an immediate loss or a greater one later on—and we feel that the loss at this time will be fully compensated by the accomplishing of our purpose, viz.: Turning our surplus stocks into ready cash as quick as possible.

THOUSANDS OF DOLLARS WORTH OF CLOTHING AND FURNISHINGS WILL BE GIVEN AWAY DURING THIS MONSTER OVERSTOCK SALE

Here's a Clothing Sale that will hold everybody at top speed. A gingering, electrifying sales event of vital interest to every man, boy and child. This Sale stands out pre-eminent as the one and only big event of its kind. Just as Thomas Edison is proclaimed the electrical wizard of the entire world, so does this Sale take its lead in the Clothing Sales History of this city and echoes economy to all. Take into consideration the fact that we are offering New Merchandise right in the heart of the season at a fraction of their actual worth—and it will convey to you some idea of the wonderful bargains that will be offered in this Sale—a Sale unequaled in the History of Modern Merchandising.

Mayor Bell Says Law is Enforced
But Saloons and Some Cafes do
Business on Sunday.

REPORTS OF CRIME WAVE

Newspaper Men Are Still Barred
From Police Headquarters—
Times Have Changed.

(By United Press.)

Indianapolis, June 12.—The newspaper men's "quarter" is a thing of the past here. It may return, and will return if certain men come into power at police headquarters, but under the present city administration the newspaper "boys" have less standing than a "drunk" about headquarters. The present situation is little short of a feud, with the police on one side and certain newspaper men on the other. It started when Joseph Bell became mayor and appointed Sa, Perrott chief of police, and it will not end until Bell and Perrott are out of power in the capital.

The argument centers about the question, "Is there a crime wave in Indianapolis?" and the other, "Is Mayor Bell enforcing the laws?" For the purpose of giving the state an unbiased answer to the latter question, the United Press made a few inquiries last Sunday night. The U. P. representative inquired of the clerk of one of the biggest hotels whether "the drinks" were to be had that night.

"Sure," was the reply.

"But I didn't get them here two weeks ago."

"That was before Decoration Day," the clerk said. "The mayor has come to his senses since then." He added that on Decoration day the front door of the adjoining saloon was open for business all day.

Mayor Bell maintains that the laws are being enforced. He says however, that it is impossible to enforce them entirely, but that much progress has been made. He said the saloons operated on Decoration day because his regular force of policemen were busy at the Speedway, leaving the beats to special and inexperienced men. Bell, who was formerly attorney for the brewers, has at all times declared that he stood for law enforcement, and until within the past few months his critics have admitted that he has been enforcing the law.

Whether there is a crime wave in Indianapolis is difficult to answer. There certainly has been much crime, but whether it is exceptional is the question. Several murders have been committed, and one of these murderers, Perry Lynam, is at large. There have been many robberies and hold-ups, but they always have been more or less prevalent in Indianapolis.

The occasion for the trouble between the police and certain newspaper men was the order of Chief Perrott that patrolmen, sergeants, and lieutenants of police should not give out news. This censorship has been vigorously attacked. It also lays the administration open to the charge that the crime exists. The charge is made that since many crimes have been uncovered that were not reported by the police, it is reasonable to suppose that many have been committed that the police have kept secret. It is impossible to ascertain the degree of truth of this charge.

The police reporter, who formerly was an "honored guest" in the police emergency machine when it was sent out on important work requiring speed—such as reported murders, holdups, "goods" suicides and cutting frays—now bites his nails as he watches the "fast wagon" whisk out of police alley into Alabama street and disappear in the distance.

One newspaper has provided its men with a taxi, which stands ever-ready for emergency. Another has bought a bicycle, which helps some. The telephone has been employed to much greater extent than formerly, and neighbors to the accident or crime asked to serve as impromptu reporters.

A newspaper man here was enter-

taining a reporter from Chicago two years ago. The Chicago men told him of the difficulties in gathering police news in that city.

"We have them trained here. They let us ride with them," the local reporter said.

Times have changed sadly since then.

THE YOKE AS USED ON THE SUMMER FROCK

One of the most important style details this season is the yoke. It appears on both bodice and skirt; two attractive examples of shoulder yokes are illustrated in these youthful summer frocks.

Modore brown taffetas fashions the coat dress shown in 8161; collar and cuffs are of a figured silk in soft contrasting tones and the suede belt and novelty buttons extending down the front are in a contrasting shade of brown which is much favored just now; it is between mahogany and modore and is really a charming shade.

This dress requires for a girl of sixteen, 3 1/2 yards of 42-inch material. Taffetas are wide, averaging 38 to 40 inches in width; in price they range from \$1.25 a yard and up.

The second frock, 8253, shows an attractive yoke joined to the gathered body of the frock with a novelty beading. One of the new summer weight, printed silks is used with this design; there are several shades of green on a cream ground.

This pleasing little frock may be used for summer afternoons, dances, etc. For a girl of sixteen, the design requires 4 1/2 yards of 36-inch material.

"THIS IS MY CAR"

Pride of Ownership—
A Marion Inspiration

The nineteen-fourteen Marion "Four" is the result of years spent in earnest endeavor to build a thoroughly reliable car, complete in every detail of luxury and equipment.

Today this car represents a vehicle of refinement and grace—a car which is designed to give constant service.

Because of the proper relationship between horse-power and weight the Marion is economical in upkeep. Its balance insures long mileage from tires.

Flexibility of operation and a firm, absolute control at all speeds under all conditions—a wonderfully easy riding chassis—beauty of line and finish equal to that of any high-priced product, are characteristics of the Marion which inspire pride of ownership.

You are always proud to say to your friend, "This is my car"

Investigate for yourself the Marion's noted mechanical excellence. Prove to your own satisfaction that the Marion, in either four or six, is a quality car. We have facts and figures to prove to you its economy of upkeep. You will better understand then why the Marion is a sound motor car investment.

THERE IS A DAINTY CHARM IN THESE COOL SUMMER NEGLIGEEES

The negligee is the one garment in which a woman may display her individuality without restraint. Materials may be as elaborate as the fancy dictates providing they are becoming; this is the only limitation.

For summer wear nothing is better suited to such a garment than one of the sheer voiles, plain or figured, or a cotton crepe; if a richer material is desired silk crepe is sheer and delightfully soft and drapery.

The draped negligee illustrated in No. 8064, is developed in a soft pink voile with collar, trimming bands on the sleeves and knotted girdle of a figured crepe. A quaint, becoming touch is given this garment by the shawl collar and the girdle. To copy this negligee in size 36, 6 1/2 yards of 36-inch material is needed. These sheer cottons average 36 and 38 inches in width and are priced from about 75 cents a yard and up.

Cotton crepe is used to advantage in the second illustration (8013). An old fashioned posy design is scattered over the surface and the trimming bands down the front are of plain white. Frills of net finish neck and sleeves and a black velvet knot serves to close the garment in front.

This design requires for size 36, 5 1/4 yards of 36-inch material.

No. 8064, sizes 32 to 48.

Wide Girdle of Hard Black Oilcloth Is Champion Belt of all Ugliness

BY MARGARET MASON
(Written for United Press.)

I've often heard of timber belts And belts of corn and wheat; But an oilcloth belt—Gee! That's a new one on me And on every girl you meet.

New York, June 12.—Everything is going to waist. That portion of woman's anatomy has long been the junk heap for all sorts of metals, hides and fabrics to hang upon; but the present wide girdle of hard black shiny oilcloth is the champion belt of all for uncompromising ugliness. Nevertheless it is smart, oh very, and you simply must be spanned with one about your middle.

The accepted model is about eight inches wide in crushed effect and fastens on the side with a sprawling vertical bow of the shiny material. Black oilcloth is most extensively used but white oilcloth is decidedly chic also and gives the fair wearer the appearance of being all dressed up like the kitchen table.

This craze for oilcloth and ribbon waxed to simulate the real article first went to Fashion's head as hat trimming and now that it has her on the middle ground it does not seem at all misappropriate that it should appear as the very newest of all dress trimmings.

Particularly in combination with blue serge is the banding and binding of the hard shiny surface most striking.

Funereal effects on both hat and frock are simply the last gasp of the mode and dull glazed wreaths of white leaves and flowers on the dull glazed black and white straw shapes in combination with the dull glazed ribbons are nothing if not "dead" swell. Let us hope, however, that lovely woman's mad passion for everything glazed will not extend to her eyes.

"Watch out" is again the slogan. To be abreast of the time your watch must now dangle from the bosom of your coat or blouse. Of oblong shape like the smartest wrist-watches the new timepiece hangs on a grosgrain ribbon exactly the width of the watch and decorated with a single jeweled slide and is pinned to the blouse or the outside of the coat with a bar pin.

The advent of this new rival has not wrested all the wrist watches from the pulse of Fashion by any means and among the novelties black enamel watches set with brilliant in bracelets, of onyx are charming exponents of the new fad for black and white jeweled combinations and settings.

Just another little instance of Fashion's weird vagaries is the style of wearing the corsage bouquet in the middle of your back instead of in front. It is quite the thing to fasten either a single rose or a tiny nosegay in the middle of the back of your crush silk girdle whose sash ends the fall from the floral decoration.

SALTS FINE FOR ACHING KIDNEYS

We eat too much meat, which clogs Kidneys, then Back hurts and Bladder bothers you.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

Salamander fashions launchee from the descriptions of the style of garments affected by the heroine of Cwen Johnson's latest novel have New York at their feet. As the frocks and suits are all cut on the straight lines of the long Russian blouse it will certainly be like playing with fire for any but the very slim and most youthful of figures to adapt the Salamander styles to their own personality.

Even the most pudgy however may indulge in an adoption of Salamander gloves, hankies and stationery, the last two articles sporting a facsimile of the lizard like beastie by way of decoration. The Salamander gloves, both long and short, are all of biscuit or cafe au lait suede and doeskin and very correct and trim looking. There are also Salamander blouses, hats, capes and everything for feminine wear from the skin out.

Indeed if clothes made the woman as they say they do the man then by donning a complete Salamander outfit presto change, everywoman could turn into a fascinating "Dodo" of the book and capture a millionaire spouse on the strength of her garments.

ROSE FESTIVAL CLOSSES TONIGHT

Today Legal Holiday in Oregon and Thousands Journey to Portland For Last Day's Program.

PARADE IS FIVE MILES LONG

(By United Press.)

Portland, Ore., June 12.—Today was a legal holiday in Oregon and thousands of visitors came to Portland to witness the close of the Rose festival, held annually to pay homage to the city's beautiful roses.

An industrial, commercial fraternal, civic and military parade, nearly five miles in length and containing a brilliant array of floral decorated vehicles, car floats and an almost endless vista of marching bodies, was held this morning.

Tonight an electrical pageant consisting of 16 floats, depicting the special historical events in the state's history from the coming of the white man to the opening of the Panama canal will traverse the city's principal streets.

Surely every girl, whether young or old, should have a parasol for the hot summer days. Do not envy your friends with their lovely embroidered sun-shades, for you may have one also. They are, it is true, expensive to buy ready for use, but you can make one with very little trouble. Fine white round-thread linen or white or colored silk, embroidered with the butterfly from pattern 14677, would make a handsome parasol, the edge of which may be finished with the hemstitch-hem, a plain hem or a scalloped edge. This may be used on a frame from which a worn cover has been taken.

Measure the width of each gore, at its widest portion and the length, allowing plenty for seams all around. Cut the number of pieces required, alternating the widest portion of the wedge shaped piece with that of the point. This is an eco-

nomical way of cutting your cloth, but if you are using material which has an up and down, the gores must all run the same way.

There are two large butterfly, each 12 by 10 inches and three smaller ones, each 6 1/4 by 8 inches, contained in this pattern. These are suitable for embroidering parasols, lingerie waists, dresses, chiffon evening gowns, negligees, and underwear, as well as lingerie pillows, bureau-scarfs, tea-cloths and sideboard-covers. This design may be developed in white on linen, lawn or batiste, in solid work, eyelets and outline-stitch. The bodies may be developed in solid work or outline and seed-stitch. On evening gowns or wraps, these butterflies would be very effective carried out in beads and bright colored sequins and silks. Guaranteed, hot-iron transfer pattern will be supplied to readers upon receipt of price, 15 cents.

Government has New Plan Regarding
Correspondents That Might
be Given Trial There

BY WILLIAM G. SHEPHERD
(U. P. Staff Correspondent.)

Vera Cruz, Mexico, June 1. (By mail to New York)—If war comes it won't be secret war. There will be no hidden monstrous things buried in the archives of the War Department away from the sight and knowledge of the American people. This much in respect of the question of publicity, has been decided by Secretary Garrison. The white light of American journalism is to be constantly fixed on the American army in the field, and the scrutiny of the correspondents is not to be limited in any way. It is realized in Washington that more of the possibilities of war scandal lurk in secrecy than in full publicity and the general, in a Mexican campaign, who tries hiding facts or conditions will find himself accountable to Washington.

But this doesn't mean that the American public is to get its news hot from the front. In fact, it won't. The truth is that in the game of war under the newest rules war correspondents aren't wanted. War col-

leges, great European tacticians, strategy boards—all the men and organizations in civilization, who lay down the rules for warfare, agree that war correspondents ought not to have a place in the game at all. In the English army war correspondents have no standing; they are not given places even for the annual maneuvers. The same is true in Germany and France. The vote of army men is unanimous that the war correspondent is dangerous, and must be done away with, as far as possible.

The United States, however, if war comes with Mexico, is going to try a new tack. The War Department's plan is to permit war correspondents to accompany the army but to place them in the rank of officers, subject to the slightest orders and wishes of the commander.

The hob that an observant and unchecked war correspondent can raise in war time is tremendous, in these days of the wireless. The smallest facts which he might send to his paper in some distant city regarding the movements or whereabouts of forces, is sure to be seized upon, when it is published, by some agent of the enemy, who will send the news around the world, if necessary to get it to the enemy.

The only way to check the war correspondent is by censorship. And so every word the war correspondent writes for the cable, every letter he writes home, to his mother, his sweetheart or his managing editor, will be passed upon by a censor.

On the other hand, the new regulations for war correspondents, provide that they may move about as they please inside the American lines and they particularly specify that, after the war is over and there is no further need of keeping facts from the enemy, the correspondent may cut loose and write as he pleases.

The specifications provide, particularly, that a war correspondent may entertain whatever opinions he pleases during warfare and that the specifications are not to be taken as meaning any interference with free thinking and full and complete note taking.

Incidentally, no correspondent who starts out with the field army, is to be permitted to return to the United States, without a special permission of the war department. This is to prevent any correspondent from yielding his place at the front in order to get back to the United States, with a story that might aid the enemy.

Grouchy, critical, dyspeptic men, who are inclined to think that the best kind of stories is the kind that criticizes and who throw the yellow light of bilious fault-finding instead of the white light of truth on the activities in the American camp, are not wanted. Fellows of this sort will be weeded out before credentials are given.

Jolly optimistic, goodnatured, healthy-minded, sensible, strong-

bodied young men, who know that war is war and that a general must win, even if a battle does turn into a rough and tumble fight, in which rules must be thrown to the winds and everything done to succeed—they're the kind of men who make the best war correspondents. They wind up, at the finish, with the best stories, the most truth, and the best personal records.

FACULTY OBJECT

(By United Press.)

Greencastle, Ind., June 12.—When it became noised about that DePauw coeds had been seen walking on the streets with gentlemen, the Methodist faculty did not like it. As a result the rules at the university have been made much stricter. A coed may not have a date one night in the week in addition to the regular Sunday-night date and she may have callers one afternoon in the week, from 4 to 5. It is rumored that the girls have been made to promise that they will not try to break these rules. All this came with the consent and co-operation of the social committee.

Obituary.

Frank Ersle Ellison, second son of Alonzo P. and Belle Ellison, was born in Walker township, Rush county, May 5, 1893.

Frank passed through the common school and gave promise of a long and useful life. He was a boy to whom you easily became attached, sociable, kind and lovable and as a young man he made friends with all whom he came in contact.

His mother died when he was six years old and when a step mother came into the home, he was a loyal, loving son as she proved a mother to him. Fond of the Bible school and church, his attendance was as regular as circumstances permitted. Although he never united with the church he many times expressed his desire and future expectation of accepting Christ as his Savior.

On June 4, 1914, with a brightened countenance and a sweet smile, his spirit passed into the beyond and we can safely leave him in the care of a loving Heavenly Father who knows our hearts and judges the intent of the mind. Frank was twenty-one years and one month of age when death called him.

He leaves his father, step-mother, one brother, one sister, one half-sister and two half-brothers in sorrow today. One brother with his mother having passed on before.

Card of Thanks.

We wish to thank our many friends and neighbors for their kindness and assistance given us during the sickness and death of our son and brother.

WANTS \$7,000 OF
BINFORD ESTATE

Boy Who Plowed on Farm Near Carthage at Age of Seven, Now a Man, Files Claim in Court.

HAD AN UNDERSTANDING

Harry M. Hudson of Greenfield Says Late Jared P. Binford Promised Him 40 Acres of Land.

Some interesting family history is contained in a claim filed this afternoon by Harry M. Hudson in the circuit court against the estate of the late Jared P. Binford. The claim is for \$7,000 and is against Mrs. Ella M. McIlvaine, administratrix of the estate. Mr. Binford died about two months ago and left his estate to Mrs. McIlvaine. His wife preceded him to the grave by a few weeks.

Hudson is a resident of Greenfield and the claim is for services covering a period of years from 1885 to 1914. The complaint states that he went to the Binford home, an orphan, when seven years old and began working as a farm hand. He states that he plowed in the field with the rest of the men and that Mr. Binford even cut off the handles of the plow to accommodate the small stature of the claimant.

Hudson, according to the complaint, stayed at the Binford home until he was twenty-one years old, and up until the time he was eighteen years of age never received any pay with the exception of his room and board. He states that because of his work on the farm he was compelled to remain away from school and only went when the work permitted.

The complaint states that Hudson and Binford had an understanding that if Hudson would remain with him until he was twenty-one years old he would be given forty acres of land when Mr. Binford died.

Mr. Binford left no children, but the will did not provide for the forty acres of land for Mr. Hudson. It is stated that Mrs. McIlvaine received most of the Binford estate. She was also raised at the Binford home. Hudson bases his claim on the value of forty acres of land and demands \$7,000.

The complaint was filed by John H. Kiplinger of this city, who, with Henley and Baker of Indianapolis, represents the claimant.

ELEVEN DIE FROM HEAT.

(By United Press.)

Pittsburg, Pa., June 12.—With eleven more dead in Western Pennsylvania another scorching day was promised today.

NEW YORK IS HOT.

New York, June 12.—Hot, muggy weather with the temperature never lower than 75 gave New York a most uncomfortable night last night.

TO DECORATE GRAVES.

The W. R. C. will meet at the court house Sunday afternoon and go to East Hill cemetery to decorate the graves of their deceased members.

Atwell Morgan, administrator of the estate of Owen Kincaid, deceased, has filed a petition in the circuit court asking permission to sell the real estate to pay the debts.

Word has been received in Carthage of the death of John Street, in Fall Brook, Cal. Mr. Street was formerly of Carthage and left there about twenty-five years ago. He was a member of the Odd Fellows lodge of Carthage.

WILL KEEP STREETS CLEAN

Five Garbage Receptacles are Placed in Carthage

Five galvanized iron garbage receptacles have been placed on the streets of Carthage. The receptacles were furnished from the funds raised by tag day and the citizens of Carthage are making an effort to educate the people to keep the streets clean. The town council has instructed the marshal to make provision for emptying the boxes whenever necessary. Other applications have been made for receptacles and if the first venture proves a success the council may provide others. The public is asked to throw all waste paper and refuse in the boxes.

HIT HER IN EYE
WITH STOVE WOOD

Phillip Robbins Tells Mayor Bebout he Did it in Self Defense, But Gets \$1 and Costs

HAD MONEY; WOULDN'T PAY

Phillip Robbins, of North Spencer street, claimed his wife would not cook for him and when he fussed with her she came at him with a stick of stove wood. To protect himself, Robbins hit her a lick, with the result that Mrs. Robbins carried a "beautiful" black eye. The black eye cost Robbins one dollar and costs in police court last night and rather than pay his fine he went to jail for eleven days.

This was the story told Mayor Bebout. Robbins was charged with assault and battery by his wife and entered a plea of not guilty. He employed a lawyer to fight the case and stated that he struck his wife in self defense. The affidavit was filed by Mrs. Robbins. Robbins had the money to pay his fine, but refused to do so.

WILL START NEW
BUILDING AT ONCE

Rushville Co-Operative Telephone Company Will Make Complete Metallic System of Milroy Plant.

NEW SWITCHBOARD AND CABLE

The Rushville Co-operative Telephone company today finished installing an additional unit consisting of 100 telephones to the switchboard. This is in keeping with the policy of the company since additions were made to the system a few months ago so that all patrons could be supplied with individual telephones.

The company will begin tomorrow on the extensive improvements that are contemplated on the Milroy system. The company purchased a lot in Milroy several months ago and active preparations to erect a story and a half frame telephone building for an exchange will be started at once. The building will include a residence for the operators of the exchange. The Milroy plant will be completely overhauled and a new switchboard installed. There will also be added a lot of new cable so as to make it a complete metallic system. When the Rushville company first took hold of the Milroy plant there were twenty-five subscribers. Now there are two hundred and fifty.

WHOLE CITY TO
SEE ELKS GAME

Prospects Are All Business Houses Will be Closed During Benefit Contest Next Friday

FACTORIES MAY SHUT DOWN

New Committees Appointed and Over Thousand Tickets Placed on Sale—Big Parade

With a thousand tickets on sale, preliminary details practically complete and an organized movement started for the closing of the business houses and possibly the factories from three until five o'clock during the game next Friday afternoon, prospects for the Elks benefit ball game which will be played at the South Main street ball park indicate that it will be the most pronounced success of any local undertaking in many years.

Every one wants to see the sport. It has seldom been the case that as much interest has been evinced in a ball game as that which has been manifested in the coming game between the Marrieds and Singles. Much speculation has been indulged in whether the name of the latter team will have anything to do with its batting average. But there is a disposition in some quarters to believe that the "home run" proclivities of marrieds will more than offset that because of their recognized ability and experience in this department of the game.

All of the professional men will go to the game, and if all of the stores, restaurants, barber shops and business houses of all description will close, it may be that the factories will be shut down for a couple of hours, according to reports, to give their men an outing. Anyway, the impression is that there will not be a corporal's guard left down town when the mps. shouts "play ball."

The parade from the club rooms alone should attract the attention of the entire city and there will doubtless be a large crowd packed along the "line of march." The press agents for the Elks say that the stunts at the ball park, aside from the game, will be "well worth the price of admission," and the funny part about it is that every one believes it.

Tickets have been placed on sale at Becker's Shop and Brann's grocery. They may be purchased from any Elk as each member has ten tickets and he is obliged to sell them. The price of admission is twenty-five cents to everyone and the grand stand will be free. It is strongly advocated and urged that every person buy their tickets at once as there will be such a jam and confusion when the parade enters the ground from persons wishing to get a choice seat.

A finance committee has been appointed to assist Treasurer Will Braun and Assistant Treasurer Charles G. Offutt in counting the money and checking up the tickets. This committee will have complete charge of the gate and will see to it that no one gets by without a ticket. This committee is composed of the following: Francis Moor, Earl H. Payne, Theodore Heeb, Fred Lightfoot, Ralph Payne, A. B. Irvin and Lewis M. Sexton.

The most important committee, however, is a committee on entertainment. The boys no doubt will feel like eating a square meal after the game. This committee will provide an elaborate fried chicken dinner in the evening. It consists of the following: John W. Anderson, P. C. Buell, Dora N. Hillgoss, O. M. Har-

ALLEGES HORSE
HAD THE SWEENEY

Andrew J. Province, a Mt. Summit Merchant, Testifies in His Case Against George H. Bell.

MARE "TOUCHY" ABOUT NECK

"David Harum" Horse Wit is Out-Growth of Sale Made February 27, 1912.—Other Court News.

The case of Andrew J. Province, a merchant of Mt. Summit, against George H. Bell, a prominent farmer of near Mays, in which \$200 is demanded, alleging the misrepresentation in the sale of horse, started in the circuit court this morning before a jury, but was continued until a future date this afternoon, when it was shown that Mrs. Millie Odono, mother-in-law of Province was owner of a half interest in the horse. An amended complaint was filed. Province bought the horse at the Bell sale February 27, 1912.

He alleges that the horse was sold to him to be sound and was warranted by Mr. Bell. He bid the horse off at \$224 and took it to Mt. Summit. He testified that the horse was hitched with another three days after the sale and that instead of proving gentle and sound the animal refused to pull and was found to be suffering from sweeney.

Mr. Province stated that the mare showed signs of having had her shoulders treated as they would flinch everytime anyone touched them and that later on would fight when the tender spots were touched. Mr. Province stated that the horse was not worth what he paid.

He told of working the animal three times. The first time he hauled a load of corn, the second a load of coke weighing 1,030 pounds and the third time a load of wood. He stated that on each occasion the mare refused to pull and was found to be suffering from sore shoulders.

In the opening statement the defense stated that they would show that the mare was sold later on for more money than Province paid in the first place. The plaintiff is represented by B. F. Miller, Eugene Miller and John A. Tittsworth and the defendant by Samuel L. Trabue and Will M. Sparks.

The jury hearing the case is composed of the following: C. F. Wagoner, John E. Booth, George Havens, Ira Harcourt, W. R. White, John Overleese, Luther Caldwell, Ebner Morris, William E. Pitman, Daniel Newkirk, Vern Smith and William H. Fisher.

Judge Megee this morning granted the motion for a change of venue in the damage suit of Larry B. Harris against the P. C. C. & St. L. railway. The motion was filed by the defendant company and the case was sent to Bartholomew county. Harris demands \$600, alleging that the railway was responsible for the loss of two valuable mules.

The case of John Hinehman against S. H. Colter and Son, has been dismissed on motion of the plaintiff. It was an account suit in which \$271.11 was demanded.

The Rev. A. W. Jamieson will preach on the subject "Severed from Christ" tonight at the United Presbyterian church.

The funeral services of William Richey will be held Saturday afternoon at three-thirty o'clock at the late residence in Milroy and burial will take place in the Milroy cemetery.

WILL POE NOT PUNISHED

Wife Will not Prosecute Shelbyville Man Arrested Here

Wm. Poe, who was arrested here last week and returned to Shelbyville to face a charge of deserting his wife and two children, was released on his own recognizance yesterday when arraigned before Judge Blair in the circuit court. Mr. and Mrs. Poe talked matters over and she informed the court that she did not desire to push the case as they would again live together. He was allowed to go with the understanding that he would conduct himself properly.

CRITICAL STAGE
REACHED TODAY

Once Again, it is Announced, Mediation Will Succeed or Fail Within a Few Hours.

MEXICANS ARE NOT SO HAPPY

(By United Press.)

Niagara Falls, Ont., June 12.—Efforts to find a solution for the pacification of Mexico through mediation reached a critical stage today. On the conferences which are to follow will rest success or failure.

A full conference is scheduled for this afternoon when the American delegates will again meet with the three Mexican delegates before the mediators.

There was optimism at American headquarters and the belief that substantial progress had been made in the conference so hastily assembled late yesterday. This was not reflected on the Canadian side, however.

The three South American mediators today declared they would not withdraw from their stand that Carranza must submit to an armistice before they would officially admit his representative to the conference.

ENCOURAGING SAYS
WILSON AS USUAL

Customary Expression Concerning Mediation is Forthcoming From White House Today.

CARRANZA TO PARTICIPATE

(By John E. Nevin.)

(By U. P. Staff Correspondent.)

Washington, June 12.—The White House today officially announced the Mexican situation as "very encouraging." Following a conference with the president, Secretary Tumulty said:

"The president authorizes me to say that the Mexican situation so far as mediation is very encouraging. The outlook is every favorable."

Further than this Secretary Tumulty would not go. He let it be known, however, that the president has received official word that Carranza is to participate in mediation. It is understood Justice Lamar let the president know today that real progress is already being made on the terms of the peace protocol.

Mrs. Frank Wooster, who underwent an operation some time ago at the Sexton sanatorium for gall stones, was able to be taken to her home yesterday. Mrs. Wooster is getting along nicely.

RUSH WILL HAVE
BIG DELEGATION

Sixth District Convention at Cambridge City Next Tuesday will be in Nature of Rally.

COUNTIES ARE ENTHUSIASTIC

Judge D. W. Comstock of Richmond Endorsed For Nomination and May be Convention Choice

Republicans of Rush county are looking forward with much anticipation to the sixth district convention which will be held at Cambridge City next Tuesday to nominate a candidate for congress. Judge D. W. Comstock has been prominently mentioned for the nomination.

Efforts are being made to take a large delegation from Rush county and indications now are that success will crown the efforts of the county committee and others. The district convention will, in addition, serve the purpose of a district rally. Preparations are being made for an immense crowd as all of the counties have sent word that they will send a big delegation besides the accredited delegates to the convention.

Train connections with Cambridge City for Rush county persons are rather inconvenient as they will have to leave Cambridge City the middle of the afternoon on the Pennsylvania if they wish to return directly to Rushville. Many, however, are planning to return by way of Connersville, leaving Cambridge City by an L. E. & W. train which arrives in Connersville at 6:50 o'clock.

Although it is not certain, it seems to be the opinion generally that Judge Comstock will be the nominee of the convention. The enthusiastic endorsement which has been given him by most every county in this district makes him look like the choice of the rank and file of the Republicans.

The district convention at Cambridge City will convene at 10:30 o'clock. Each county will have the following representatives:

Fayette, 11; Franklin, 7; Hancock, 10; Henry, 18; Rush, 14; Shelby, 15; Union, 5; Wayne, 26.

Following the convention Wayne and Fayette will hold a convention to nominate a joint representative, probably a Fayette man, and Wayne and Union will hold a convention to nominate a joint senator.

"I believe Judge Comstock is the ideal selection for the Republican congressional nomination," said P. J. Lynch, of Newcastle, sixth district chairman, in a recent interview. "He has an unimpeachable record, is a man of brilliant attainments, a splendid orator and one of the most accomplished."

"Safety First"

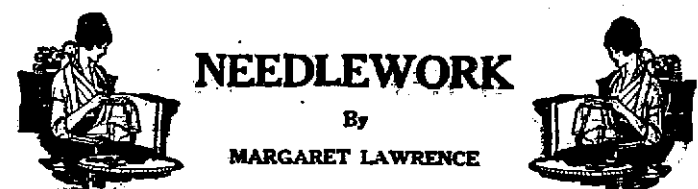

This is the modern cry many legislative bodies are taking up and writing into law.

"Safety first," is the rule of the wise shopper who takes nothing for granted.

First of all she reads the advertisements in The Daily Republican weighing the claims side by side and then deciding for herself which fit her needs.

She knows she is going to the store of a realistic merchant before she starts out.

And satisfaction usually attends her shopping.

NEEDLEWORK

By MARGARET LAWRENCE

DAINTY AND ATTRACTIVE UNDERWEAR DESIGNS FOR SUMMER WEAR

Dainty underwear appeals to the eye of every woman and such lovely and attractive things may be made from handkerchief linen, fine lawn, batiste, cross-barred muslin, cotton crepe, China silk or crepe de Chine. These may be effectively trimmed with lace and ribbons.

Hand embroidery is a very satisfactory trimming for underwear as it launders so well and will often outwear the garment itself.

Pattern 14133, is a design suitable for embroidering a chemise or corset-cover. By omitting the flower in the center, it may be used on a front closing garment. The small flowers and leaves should be developed in solid work and eyelets, and the large flowers and scalloped edge in button-hole stitch. The price of this pattern is 15 cents.

Border 14134, which is of the same design, may be used on the bottom of the chemise or combination. A simple dotted border makes an attractive edging for the neck and sleeves of a nightgown. The border shown here is 2 1/2 inches wide and 3 yards and 4 corners are contained in the pattern. This should be developed in solid work or eyelets and is appropriate for use on underwear, dresses, neckwear, negligees and children's clothes. This pattern is 10 cents.

14408

When using a scalloped border on a curve, slash both edges of the paper at frequent intervals, close to the design. This allows the paper on the outer edge to spread and that on the inside curve to overlap. The pattern should be firmly basted in place before transferring the design. Guaranteed, hot-iron transfer patterns will be supplied to readers upon receipt of price.

A CHIC SUIT OF LINEN IN THE FAVORED WHITE AND BLACK COMBINATION

Quite the most charming frocks are being designed for this season. There are, however, few furberlows and "fixins": effects depend upon simplicity of cut and quaintness of materials.

The flowered cottons, in Dolly Varden and old fashioned garden posey designs are even better suited to small frocks than to "grown-up" designs although they are most pleasing for both.

A peasant, slip-on frock is illustrated in 8330; it is finished with a casing at neck, sleeves and hem through which ribbons are run to gather it in a trifle. If desired the casing may be arranged at the low French or the empire waist-line. A spotted cotton voile in pink and white is effectively relieved here with the tiny bows of black velvet ribbon on neck, sleeves and hem.

For a child of four, 1 1/2 yards of 36-inch crepe or voile is required.

The attractive lines of the second design make it especially good for linen or one of the heavy cottons. Ivory white linen is used here with collar and cuffs of black and white striped taffetas; a bias band of the black taffetas, drawn through worked eyelets serves to close the coat.

While linen is excellently suited to this model it is also appropriate for taffetas, gabardine or serge. Moire, which is being used so generally just now, would make up effectively too.

For size 36, this suit requires two yards of 42-inch material for the coat (8345), and 2 1/2 yards of the same width for the skirt (7814).

No. 8330, sizes 1 to 6.

No. 8345, sizes 34 to 42.

No. 7814, sizes 16, 17 and 18.

Each pattern 15 cents.

HAVE DARK HAIR AND LOOK YOUNG

Don't stay gray! Nobody can tell when you darken gray, faded hair with Sage Tea and Sulphur.

Grandmother kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. When her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of this old-time recipe, ready to use, for about 60 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, itchy scalp and falling hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur, because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and abundant.

We Are Still Selling Buggies.... and have every style buggy known to the best vehicle builders in the country. We have large, roomy buggies that are low down and easy to get in and out of and then we have them for the young folks (we don't mean baby carriages) and middle aged people. In fact, we have buggies to meet every requirement of all kinds of buggy users. There is no use for us to tell you of their quality, perhaps you have already found that out by using one, or if not you can ask your neighbor and he will tell you how they wear. You take no chances when you buy from us because we guarantee every buggy we sell and guarantee it an honest one, and one that is always good. We believe that an honest guarantee gives us the good will of our customers and when a merchant loses the good will of his customers he is flirting with the commercial undertaker. Let us fit you out with your next buggy and you will always be glad you did it.

ON and OFF the SCREEN

HERBERT RAWLINSON.

SCENE FROM "THE SONG IN THE DARK."

Herbert Rawlinson, the popular film hero, has had an interesting career. Born in England, he came to Canada to become a merchant and ended by joining a road show. This gradually led to a career in the movies.

Arthur Mackley, the sheriff and director of the "Boncho Billy" motion pictures, is now appearing in Mutual movies. He is hard at work at Los Angeles with Courtenay Foote and Irene Hunt on a two reel western drama, "The Return of Colonel Clauson," by Birdsell Briscoe.

Mr. Mackley is soon to attempt a novelty in motion picture production in the form of a two reel subject, in which for two-thirds of the reel there is but one character visible on the scene, this character being played by Mr. Foote, a former Vitagraph star. The picture is "The Stiletto," by F. E. Woods.

"The Sea Gull" is a picture of great scenic beauty and Indian romance. An Indian brave, infatuated with a beautiful young squaw, takes her to his wigwam. She tries by treachery and chicanery to replace his first wife, the mother of his child. Fate reveals to him her real nature in contrast to the woman who has been his ever faithful helpmate, and he is glad she has been saved to him and their child.

"Putting One Over" is the fourth chapter in the active life of "Dolly of the Dailies," by Acton Davies. The Reform league is fighting the Union Realty company. The latter decides to bribe the reformers, who appeal to the Comet for advice. Dolly calls on the realty company as the representative of the reformers, gets a check for \$5,000, is recognized, but escapes and puts over a big "scoop," bringing about the downfall of the crooks.

PLANS GREAT SUBMARINE.

Navy Will Build Boat With Batteries
Like Destroyers.

A new type of armed submarine boat
which promises to displace the torpedo
boat destroyer and revolutionize naval
warfare has been developed in the
navy department at Washington.

Department experts propose to build
a seagoing submarine of about the
size of the present destroyer, but con-
siderably larger than existing subma-
rines. It will have a speed of twenty
knots on the surface and twelve to
fourteen knots when submerged and
will have the double function of en-
gaging in under water attack and in
taking part in action on the surface.

The new submarine will carry a dis-
appearing battery of three or four
guns of four or five inch caliber in ad-
dition to the usual torpedo tubes. The
guns can be raised above the deck and
lowered beneath waterproof shutters
when the vessel is under water.

HAVE BALLOONS ENTERED.

Austria and Belgium Will Be Repre-
sented in Big Race.

Austria and Belgium each will have
two balloons entered in the interna-
tional race for the James Gordon Ben-
nett trophy, to start from Kansas City
Oct. 6 next, according to an announce-
ment by George M. Meyers, president
of the Kansas City Aero club.

shorter trunks, longer necks and no

Florence Mahin of Rushville.

Amusements

The Princess will show a two reel
Lubin feature "A Mansion of Sobs"
for the first picture tonight. It is a
sensational society drama and tells
a very clever and novel story. The
other is a Biograph comedy entitled
"Skelley's Birthday." Both are said
to be exceptionally good pictures.

The Gem will show a Victor drama
"Scoop by Cupid" for the first pic-
ture tonight. J. Warren Kerrigan
and Cleo Madison are featured and it
is said to be a clever production. It
is a newspaper story and cupid wins
in the end. The other is a two reel
Imp feature "Out of the Far East."
Leah Baird and Frank Crane are fea-
tured. It is said to be a beautiful
society drama.

Sound in a Fog.

It has often been noticed that on
wet and foggy days sounds are heard
at a greater distance than on clear,
fine days. It was Tyndall who ex-
plained the reason for this. He no-
ticed that the distance at which the
sounds of foghorns, whistles and shots
could be heard varied from day to day
from two to twelve miles. The cause
of this difference is found in the de-
gree of homogeneity of the air. On a
foggy or snowy day the air may be
perfectly homogeneous; this permits
sound to travel a great distance. In
clear weather the air may be composed
of vertical layers of differing consist-
ency, and the sound waves are re-
flected from the surfaces of the layers.
Probably they are also refracted in
passing through the several layers.
Currents of warm ascending air form
in one place and currents of cold de-
scending air form in others. Thus the
atmosphere may be very transparent
optically and very opaque acoustically.
—New York World.

Dew and fog both indicate fine
weather; while remarkable clearness
of the atmosphere is one of the most
characteristic signs of coming rain.

REPUBLICAN CALL

For Congressional Convention of the
Sixth District.

The Republicans of the Sixth Con-
gressional District of Indiana will
meet in delegate convention in Cam-
bridge on June 16, 1914, at 10:30
o'clock for the purpose of selecting
a candidate for Congress for the
Sixth Congressional District. The
total number of delegates to said
convention will be 100, apportioned
to the several counties, comprising
the district, as follows:

Fayette	11
Franklin	7
Hancock	10
Henry	18
Rush	14
Shelby	15
Union	5
Wayne	26

By order of Republican State Com-
mittee, P. J. LYNCH,
District Chairman.

Judge Comstock

Judge D. W. Comstock of Rich-
mond, past commander of the de-
partment of Indiana, G. A. R., a
jurist of some note in Indiana, is
being urged to become the candi-
date for the nomination for con-
gress in this district at the hands of
the Republicans when they meet in
Cambridge City next week. He ap-
parently has a large class of admir-
ers.

Regarding the candidacy of Judge
Comstock the New Castle Courier,
one of the most influential Republi-
can newspapers in the district, says
editorially:

"The endorsement of Judge Daniel
W. Comstock for the Republican
nomination for congress in the Sixth
district by the Wayne county Re-
publican convention will meet with
hearty approval in all parts of the
district. Judge Comstock recently
retired from the appellate bench
where he served for several years
with distinction. He is a veteran of
the Civil war and a past command-
er of the department of Indiana, G.
A. R.

"Judge Comstock is a staunch and
steadfast Republican and has never
wavered in his support of the prin-
ciples of the party and its nominees in
county, state and nation. As a candi-
date for congress he would make a
dignified, forceful and effective cam-
paign and should be elected he would
serve the district with honor and
credit.

"The congressional convention will
meet at Cambridge City on June 16
and the Wayne county delegation
will go to the meeting with several
strong arguments as to why its can-
didate should receive the honor,
which in these days of an apparent
political revolution as a result of the
general and wide-spread dissatis-
faction over the new Democratic
laws, cannot be looked upon as an
entirely empty honor. No man has
the nerve to stand up and predict
that a Republican will not be elected
to congress from the Sixth district
this year and in case one is the party
and the people would never have
cause to regret that Judge Comstock
was the man to beat Finly Gray."

Editorialettes

Some thing to get excited over is
the announcement that the United
States department of agriculture will
gather a census of birds. Some
folks who haven't ought to get in
on that.

The fact is chronicled merely for

the satisfaction of the fellows who
can't buy an automobile on the in-
stallment plan that up at Logans-
port the other day an automobile
tire blew up while it was being pump-
ed up and rendered the puncepe tem-
porarily, if not permanently, sight-
less.

"But, on the other hand," says
Doc. McVey of Coons Corner, "it's
possible a fellow without a farm
might own an automobile. You
notice I say possible and not prob-
able. Of course us farmers all have
the advantage when it comes to
automobiles. We generally get up
about 9 a. m. and get an hour's en-
joyment out of our machines before
lunch. Then we turn in and do an
hour's work in the hay field before
an early dinner in the evening. By
that time we are thoroughly ripe
for a good jaunt across the country.
But speakin' of automobiles, I heard
of a trick a neighbor did the other
day that ought to cause him to be
recommended to the Carnegie hero
commission for a gold medal. One
of his inner tubes blew out. Having
only five hundred acres of land, a
few thousand in the bank, he felt
that he couldn't afford a new inner
tube, so he stuffed the casing with
hay. He used the tire that way for
several weeks. If he's not a fellow
to put the garages out of business?"

A school teacher can never realize

It has been estimated that one
human uses about 375 hoghead

Consider this when you are tempted

ROBERT OWEN
NOT SOCIALIST

James E. Watson Declares he Be-
lieved in Right to Own and Enjoy
Private Property.

IS NOT SOCIALISTIC IDEA

Makes Principal Address at New
Harmony Centennial—Posey
County Day is Celebrated.

New Harmony, Ind., June 12.—
Posey county day was celebrated to-
day at the centennial here under the
direction of Captain Ribevre. Major
G. V. Menzies will speak tonight. This
afternoon there was a horse show
and this morning a floral automobile
parade and band tournament for
Posey county musical organizations.

Yesterday was a day for fraternal
orders. Thousands of people thronged
the sidewalks and automobiles
made the broad streets impassable.
Brass bands and parades of lodges
had an important part in the day's
proceedings.

Speaking on fraternalism in relation
to New Harmony and the idea
which caused its founding, James E.
Watson of Rushville delivered the
main address last night. He attack-
ed the principles of socialism, de-
claring that the Owenites were not
socialistic in their belief so much as
they were in trying to carry out the
principles of modern fraternalism.

He said in part:
"It is peculiarly fitting that one
day of this celebration should be de-
voted to fraternalism, for both the
Rappite and Owen propaganda had
as their ultimate object the equality
of man. However, neither of these
attempts at equalization was based
upon the theories of modern social-
ism.

"Robert Owen was not a socialist,
as that term defined by Karl Marx
and Frederick Engels and their fol-
lowers. He believed in the right to
own and enjoy private property; So-
cialism does not. He believed in the
family, in the home, in marriage and
the rearing of children by parents,
and socialists do not. He believed in
a constitutional government and in
the representative character of our
institutions; modern Socialism be-
lieves in neither.

"The whole of the proposed system
of Socialism, as taught by all its ad-
herents of whatever school, rests upon
the doctrine of economic deter-
minism. And what is economic deter-
minism? It means in a word that all
the relations of life, of whatever
character, are absolutely determinate,
are finally and irrevocably fixed, by
the distribution of the means of pro-
duction and the methods of trans-
portation. It is rank materialism
pure and simple.

"What is the fatal weakness of the
entire socialistic philosophy? Mani-
festly that it inverts and utterly per-
verts all the forces of nature. It places
the material above the spirit-
ual, in fact, denies the very existence
of the spiritual. What is the only
tenable doctrine of equality? Simply
this: The fatherhood of God and
the brotherhood of man. The only
source of a true equality is not ma-
terial, but spiritual. It springs not
from man, but from God."

Ministers of Cleveland Will Perform
Only Eugenic Marriages.

(By United Press.)

Cleveland, Ohio, June 12.—An-
nouncement by a score of Cleveland
ministers of refusal to marry per-
sons who can not show a doctor's
certificate of health will be made in
a few days according to the Rev. T.
S. McWilliams, of Calvary Presby-
terian church, one of the foremost
leaders in the eugenic movement here.
At the same time the ministers will go
on record as favoring the teaching of
sex hygiene in the public schools.

In carrying out their determination
the ministers will have the co-opera-
tion of the Cleveland physicians, who
will examine thoroughly every candi-
date for marriage, referred to them
by any minister of the association.

LORIMER BANK CLOSES DOORS

LaSalle Street Savings and Trust, of Which Former Illinois Senator is Head, Quits Business.

BANK EXAMINER EXPLAINS

Says he Found Conditions so Bad he Gave Officials Time to Get Mil-lion—They Couldn't.

(By United Press.)

Chicago, June 12.—The LaSalle Street Trust & Savings bank, popularly known as William Lorimer's bank, one of the largest in Chicago, closed its doors today and was taken over by the state auditor who said that following an examination the bank was hopelessly insolvent.

A crowd of 1,500 excited depositors soon thronged the street. A man appeared at the twelfth floor of the bank building and deliberately kicked out a large pane of glass. The glass fell into the crowd and a dozen persons were injured. The police could not find the man.

William Lorimer, who once sat in the United States senate, is president of the bank.

Three smaller banks were closed simultaneously. They were the Broadway State bank, the Ashland-Twelfth State bank and the Illinois State bank. All were correspondents of the Lorimer bank. These probably will be permitted to reopen soon.

"The LaSalle street bank has been watched for over six months," said State Examiner Hawkins. "I came here yesterday and found conditions so bad that I gave the officials until nine o'clock today to produce one million dollars to prepare for any emergency. I took charge when they failed to get the money. The Corn Exchange bank would not handle their checks."

The funeral services of Benjamin Stewart, who died yesterday at his home in Carthage, will be held Saturday morning at ten-thirty o'clock in the Center church conducted by the Rev. S. G. Huntington. Burial will take place in the church cemetery.

The funeral services of Mrs. Chas. Boyd will be conducted tomorrow afternoon at three o'clock at the Lick Creek church. Burial will take place in the church cemetery.

Reversed.

This may be a new one to some of our readers: Enter into the only drink dispensary in the dusty town an engineer on an examination trip. A small crowd surrounds a happy looking prospector who is setting them up. One man informs our engineer, "Jim just struck the thin edge of an ore body on his Red mountain prospect today, and he's feeling mighty good." Then follows an introduction to Jim, who declares with emphasis, "Yes, sir, I am within just three feet of a million dollars." A year later, happening into camp again, our engineer encounters Jim, sitting dejectedly on a bench in front of the same dispensary. After a drink in reply to an inquiry about the great ore body Jim stated with sad emphasis, "Partner, I'm a million feet from \$31" — Engineering and Mining Journal

Winner of Preliminary Matches Between Different Countries Meets American Team For the Trophy in the Late Summer—Antipodeans and Canadians May Play in West.

Tennis players representing the cream of seven nations will contest in the 1914 Davis cup matches to be held in this country and abroad, and definite arrangements are now under way to make this the best season ever experienced in international competition.

England, Australia, Germany, Canada, France, Belgium and the United States will be represented in this year's Davis cup matches, the first six being the challenging nations.

It is generally thought that Australia will be challenger for the cup when the final round is reached, but there may be a few surprises in store. Canada drew Australia in the preliminary tie, but the northern players are not discouraged, and they look forward to the match with pleasure. Canada disposed of both Belgium and South Africa last year and lost the matches with the United States.

nary tie played in that section. R. P. Powell, one of the best of the Canadian racket wielders, and B. P. Schwengers both favor Vancouver or Victoria for the matches.

Australia has officially named its Davis cup tennis team as the players are on their way abroad, and a number are on their way to the scene of the Davis cup matches. From Melbourne comes the report that Anthony F. Wilding, the world's greatest player; Norman E. Brookes, Alfred W. Dunlop and Stanley N. Doust will make up the team. The sailing of A. W. Dunlop was to have been delayed, owing to the burning of the Colosseum, one of the drapery stores owned by the company in which Dunlop is a director. But at last the last minute Dunlop decided to sail on the original date and did so.

Among the leading players in the 1914 matches will be J. C. Parke, England, the great Irish player, who has been ranked by many as being on a par with our own Maurice E. McLoughlin, champion of the United States; H. Kleinsroth, the German; Anthony Wilding and Stanley Doust, Australia; R. B. Powell, Canada, and our own Davis cup stars, Maurice McLoughlin, R. Norris Williams and Wallace E. Johnston.

The players who will probably be selected to represent the various nations are as follows:

United States—McLoughlin, Williams, Johnston, Hackett.
England—Dixon, Lowe, Barrett, Parke.
Canada—Schwengers, Powell, Mayes, Foulkes.
Australia—Wilding, Brookes, Dunlop, Doust.
Germany—Itabe, Kleinsroth, Fretzel, Kreutzer.
France—Decouris, Gobert, Laurentz, Germot.

BITS FROM THE BOXING WORLD

Phil Bloom After a Match With Joe Rivers.

KNOCKOUT BLOW'S DEBUT.

A Sign of Progress in the Art of Pugilism—Was Unknown Till the Day When John L. Sullivan Reigned Supreme—Government Should Supervise the Clubs in This Country.

In site of his recent defeat at the hands of Leach Cross, Phil Bloom, the clever New York lightweight, is not in the least discouraged and is after a match with Joe Rivers. Bloom thinks that Rivers' style will be easy for him

PHIL BLOOM.

and expects to win on points, if not over the knockout route.

While still a youngster, Phil has had several years of ring experience and knows the game from A to Z.

George Chip, Eddie McGoorty, Jack Dillon, Mike Gibbons, Bob Moha and several others will be interested to know that Jimmie Clabby and Billy Murray are about to engage in a battle for the "middleweight championship of the world."

Recent victories in boxing bouts have started a controversy about the knockout blow. The knockout blow, which is administered by reaching the point of the jaw or jugular vein with enough force to temporarily paralyze the nerve, is practiced by nearly every boxer who engages in a contest nowadays. The blow is a sign of progress in the art of pugilism. Thirty years ago it was practically unknown. In 1880, when John L. Sullivan began his knockout career with the gloves, the blow was first brought to public notice. In all of the big ring contests in olden times the principals were wont to last much longer for the reason that they knew of no such decisive method to put an opponent to sleep. Instead of trying to reach an opponent's jaw they used to batter one another's eyes and noses. Those were the days of bare knuckle, skin and small glove fights. As a general result a fighter who could slowly but surely blind an opponent won when his rival's seconds threw up the sponge or their man fell from sheer exhaustion.

The leg work, scientific blows and methods of defense employed by boxers nowadays were unknown in the old days, which goes to prove that the sport has undergone vast improvement in every way. The old battles in unfrequented places, on barges and at resorts out of reach of the law were long drawn out as a rule and in many cases indecisive. Had old time fighters known of the knockout blow as delivered nowadays the majority of the ring contests would have been much more satisfactory to onlookers. Then again, the better element has become interested in boxing and the toughs and thugs have been gradually pushed to the wall by the high class of patrons at the various clubs. The only thing that remains to be done to perfect the game is the establishment of a governing organization, which can control both fighters and clubs, and incidentally weed out the fakers and shady characters who now and then hurt the game.

Deafness Cannot Be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

Weak Folks Made Strong

People ask us for a remedy that will make them strong again—

There's no such medicine on earth. Good food, plenty of it, properly digested, is what makes strength.

But we have a remedy that will make you hungry three times a day—so hungry that you can hardly wait for mealtime.

That's just what you weak folks need—if you could just get a good appetite again. Nature would do the rest for you.

We know that
Penslar Appetizing Tonic

is just the thing to build you up by making you eat. The formula is on the label—the makers want people to know what is in it. Nothing strong, nothing harmful, just a scientific appetizer made by a great firm of chemists. The price is \$1.00.

COMMISSION FORM IS FOUND CHEAPER

Test by Census Bureau Shows 61 Out of 69 Cities Ares Less Expensive in 1912.

TOTAL OF 195 ARE OBSERVED

(By United Press.)

Washington, June 12.—Of 195 cities in the United States having more than 30,000 population, 69 have adopted one of the several commission forms of government, discarding mayors and city councils, according to the census bureau statistics made public today. No Indiana cities are included in the list.

The most significant feature of these figures is that 61 of the cities were run in 1912 at less cost per capita than the average expense of the 195 cities under consideration.

Here's the Reason for the Unmerciful Sacrifice Sale
SOUND BUSINESS JUDGMENT ABSOLUTELY DEMANDS THIS FEARLESS RESOLUTION TO SACRIFICE OUR OVERSTOCK OF MEN'S AND BOYS' CLOTHING AND FURNISHINGS. CONDITIONS AND CIRCUMSTANCES have combined to not only make this sale advisable, but absolutely necessary. During the past season, for unaccountable reasons, there has been a country-wide repression or depression of business. While the clothing and furnishing trade has suffered the most of all. The backward and unseasonable weather has clogged the channels of trade—to cure the result of these conditions we must accept an immediate loss or a greater one later on—and we feel that the loss at this time will be fully compensated by the accomplishing of our purpose, viz.: Turning our surplus stocks into ready cash as quick as possible.

THOUSANDS OF DOLLARS WORTH OF CLOTHING AND FURNISHINGS WILL BE GIVEN AWAY DURING THIS MONSTER OVERSTOCK SALE

Here's a Clothing Sale that will hold everybody at top speed. A gingering, electrifying sales event of vital interest to every man, boy and child. Mayor Bell Says Law is Enforced
But Saloons and Some Cafes do
Business on Sunday.

REPORTS OF CRIME WAVE

Newspaper Men Are Still Barred
From Police Headquarters—
Times Have Changed.

(By United Press.)

Indianapolis, June 12.—The newspaper men's "quarter" is a thing of the past here. It may return, and will return if certain men come into power at police headquarters, but under the present city administration the newspaper "boys" have less standing than a "drunk" about headquarters. The present situation is little short of a feud, with the police on one side and certain newspaper men on the other. It started when Joseph Bell became mayor and appointed Sa. Perrot chief of police, and it will not end until Bell and Perrot are out of power in the capital.

The argument centers about the question, "Is there a crime wave in Indianapolis?" and the other, "Is Mayor Bell enforcing the laws?" For the purpose of giving the state an unbiased answer to the latter question, the United Press made a few inquiries last Sunday night. The U. P. representative inquired of the clerk of one of the biggest hotels whether "the drinks" were to be had that night.

"Sure," was the reply.

"But I didn't get them here two weeks ago."

"That was before Decoration Day," the clerk said. "The mayor has come to his senses since then." He added that on Decoration day the front door of the adjoining saloon was open for business all day.

Mayor Bell maintains that the laws are being enforced. He says however, that it is impossible to enforce them entirely, but that much progress has been made. He said the saloons operated on Decoration day because his regular force of policemen were busy at the Speedway, leaving the beats to special and inexperienced men. Bell, who was formerly attorney for the brewers, has at all times declared that he stood for law enforcement, and until within the past few months his critics have admitted that he has been enforcing the law.

Whether there is a crime wave in Indianapolis is difficult to answer. There certainly has been much crime, but whether it is exceptional is the question. Several murders have been committed, and one of these murderers, Perry Lynam, is at large. There have been many robberies and hold-ups, but they always have been more or less prevalent in Indianapolis.

The occasion for the trouble between the police and certain newspaper men was the order of Chief Perrot that patrolmen, sergeants, and lieutenants of police should not give out news. This censorship has been vigorously attacked. It also lays the administration open to the charge that the crime exists. The charge is made that since many crimes have been uncovered that were not reported by the police, it is reasonable to suppose that many have been committed that the police have kept secret. It is impossible to ascertain the degree of truth of this charge.

The police reporter, who formerly was an "honored guest" in the police emergency machine when it was sent out on important work requiring speed—such as reported murders, holdups, "goods" suicides and cutting frays—now bites his nails as he watches the "fast wagon" whisk out of police alley into Alabama street and disappear in the distance.

One newspaper has provided its men with a taxi, which stands ever-ready for emergency. Another has bought a bicycle, which helps some. The telephone has been employed to much greater extent than formerly, and neighbors to the accident or crime asked to serve as impromptu reporters.

A newspaper man here was enter-

taining a reporter from Chicago two years ago. The Chicago men told him of the difficulties in gathering police news in that city.

"We have them trained here. They let us ride with them," the local reporter said.

Times have changed sadly since then.

THE YOKE AS USED ON THE SUMMER FROCK

One of the most important style details this season is the yoke. It appears on both bodice and skirt; two attractive examples of shoulder yokes are illustrated in these youthful summer frocks.

Modest brown tulle frocks with the coat dress shown in \$161; collar and cuffs are of a figured silk in soft contrasting tones and the suede belt and novelty buttons extending down the front are in a contrasting shade of brown which is much favored just now; it is between mahogany and modore and is really a charming shade.

This dress requires for a girl of sixteen, 3½ yards of 42-inch material. Taf-

fetas are wide, averaging 38 to 40 inches in width; in price they range from \$1.25 a yard and up.

The second frock, 8253, shows an attractive yoke joined to the gathered body of the frock with a novelty heading. One of the new summer weights, printed silks is used with this design; there are several shades of green on a cream ground.

This pleasing little frock may be used for summer afternoons, dances, etc. For a girl of sixteen, the design requires 4½ yards of 36-inch material.

"FOUR" Marion "SIX"

"THIS IS MY CAR" Pride of Ownership— A Marion Inspiration

The nineteen-fourteen Marion "Four" is the result of years spent in earnest endeavor to build a thoroughly reliable car, complete in every detail of luxury and equipment.

Today this car represents a vehicle of refinement and grace—a car which is designed to give constant service.

Because of the proper relationship between horse-power and weight the Marion is economical in upkeep. Its balance insures long mileage from tires.

Flexibility of operation and a firm, absolute control at all speeds under all conditions—a wonderfully easy riding chassis—beauty of line and finish equal to that of any high-priced product, are characteristics of the Marion which inspire pride of ownership.

You are always proud to say to your friend, "This is my car"

Investigate for yourself the Marion's noted mechanical excellence. Prove to your own satisfaction that the Marion, in either four or six, is a quality car. We have facts and figures to prove to you its economy of upkeep. You will better understand then why the Marion is a sound motor car investment.

THERE IS A DAINTY CHARM IN THESE COOL SUMMER NEGLIGEEES

The negligee is the one garment in which a woman may display her individuality without restraint. Materials may be as elaborate as the fancy dictates providing they are becoming; this is the only limitation.

For summer wear nothing is better suited to such a garment than one of the sheer voiles, plain or figured, or a cotton crepe; if a richer material is desired silk crepe is sheer and delightfully soft and drapery.

The draped negligee illustrated in No. 8064, is developed in a soft pink voile with collar, trimming bands on the sleeves and knotted girdle of a figured crepe. A quaint, becoming touch is given this garment by the shawl collar and the girdle. To copy this negligee in size 36, 6 1/4 yards of 36-inch material is needed. These sheer cottons average 36 and 38 inches in width and are priced from about 75 cents a yard and up.

Cotton crepe is used to advantage in the second illustration (8013). An old fashioned posy design is scattered over the surface and the trimming bands down the front are of plain white. Frills of net finish neck and sleeves and a black velvet knot serves to close the garment in front.

This design requires for size 36, 5 1/4 yards of 36-inch material.

Wide Girdle of Hard Black Oilcloth Is Champion Belt of all Ugliness

BY MARGARET MASON
(Written for United Press.)

I've often heard of timber belts
And belts of corn and wheat;
But an oilcloth belt—Gee!
That's a new one on me
And on every girl you meet.

New York, June 12.—Everything is going to waist. That portion of woman's anatomy has long been the junk heap for all sorts of metals, hides and fabrics to hang upon; but the present wide girdle of hard black shiny oilcloth is the champion belt of all for uncompromising ugliness. Nevertheless it is smart, oh very, and you simply must be spanned with one about your middle.

The accepted model is about eight inches wide in crushed effect and fastens on the side with a sprawling vertical bow of the shiny material. Black oilcloth is most extensively used but while oilcloth is decidedly chic also and gives the fair wearer the appearance of being all dressed up like the kitchen table.

This craze for oilcloth and ribbon waxed to simulate the real article first went to Fashion's head as hat trimming and now that it has her on the middle ground it does not seem at all inappropriate that it should appear as the very newest of all dress trappings.

Particularly in combination with blue serge is the banding and binding of the hard shiny surface most striking.

Funereal effects on both hat and frock are simply the last gasp of the mode and dull glazed wreaths of white leaves and flowers on the dull glazed black and white straw shapes in combination with the dull glazed ribbons are nothing if not "dead" swell. Let us hope, however, that lovely woman's mad passion for everything glazed will not extend to her eyes.

If you prefer, a rosebud may nestle instead on the left hand flare of your rolling collar.

Salamander fashions launched from the descriptions of the style of garments affected by the heroine of Owen Johnson's latest novel have New York at their feet. As the frocks and suits are all cut on the straight lines of the long Russian blouse it will certainly be like playing with fire for any but the very slim and most youthful of figures to adapt the Salamander styles to their own personality.

Even the most pudgy however may indulge in an adoption of Salamander gloves, hankies and stationary, the last two articles sporting a facsimile of the lizard like beastie by way of decoration. The Salamander gloves, both long and short, are all of bisquit or cafe au lait suede and doeskin and very correct and trim looking. There are also Salamander blouses, hats, capes and everything for feminine wear from the skin out.

Indeed if clothes made the woman as they say they do the man then by donning a complete Salamander outfit presto change, everywoman could turn into a fascinating "Dodo" of the book and capture a millionaire spouse on the strength of her garments.

ROSE FESTIVAL CLOSSES TONIGHT

Today Legal Holiday in Oregon and Thousands Journey to Portland For Last Day's Program.

PARADE IS FIVE MILES LONG

(By United Press.)

Portland, Ore., June 12.—Today was a legal holiday in Oregon and thousands of visitors came to Portland to witness the close of the Rose festival, held annually to pay homage to the city's beautiful roses.

An industrial, commercial, fraternal, civic and military parade, nearly five miles in length and containing a brilliant array of floral decorated vehicles, car floats and an almost endless vista of marching bodies, was held this morning.

Tonight an electrical pageant consisting of 16 floats, depicting the special historical events in the state's history from the coming of the white man to the opening of the Panama canal will traverse the city's principal streets.

Surely every girl, whether young or old, should have a parasol for the hot summer days. Do not envy your friends with their lovely embroidered sun-shades, for you may have one also. They are, it is true, expensive to buy ready for use, but you can make one with very little trouble. Fine white round-thread linen or white or colored silk, embroidered with the butterflies from pattern 14667, would make a handsome parasol, the edge of which may be finished with the hemstitched hem, a plain hem or a scalloped edge. This may be used on a frame from which a worn cover has been taken.

Measure the width of each gore, at its widest portion and the length, allowing plenty for seams all around. Cut the number of pieces out in beads and bright colored sequins and silks. Guaranteed, hot-iron that of the point. This is an economical way of cutting your cloth, but if you are using material which has an up and down, the gores must all run the same way.

There are two large butterflies, each 12 by 10 inches and three smaller ones, each 6 1/4 by 8 inches, contained in this pattern. These are suitable for embroidering parasols, lingerie waists, dresses, chiffon evening gowns, negligees, and underwear, as well as lingerie pillows, bureau-scarfs, tea-cloths and sideboard-covers. This design may be developed in white on linen, lawn or batiste, in solid work, eyelets and outline-stitch. The bodies may be developed in solid work or outline and seed-stitch. On evening gowns or wraps, these butterflies would be very effective carried out in beads and bright colored sequins and silks. Guaranteed, hot-iron transfer pattern will be supplied to readers upon receipt of price, 15 cents.

**WAR WOULD NOT
BE VERY SECRET**

Plenty of Publicity Would be Given
to Maneuvers in Mexico if War
is The Result.

COPY WOULD BE CENSORED

Government has New Plan Regarding
Correspondents That Might
be Given Trial There

BY WILLIAM G. SHEPHERD
(U. P. Staff Correspondent.)

Vera Cruz, Mexico, June 1.(By mail to New York)—If war comes it won't be secret war. There will be no hidden monstrous things buried in the archives of the War Department away from the sight and knowledge of the American people. This much in respect of the question of publicity, has been decided by Secretary Garrison. The white light of American journalism is to be constantly fixed on the American army in the field, and the scrutiny of the correspondents is not to be limited in any way. It is realized in Washington that more of the possibilities of war scandal lurk in secrecy than in full publicity and the general, in a Mexican campaign, who tries hiding facts or conditions will find himself accountable to Washington.

But this doesn't mean that the American public is to get its news hot from the front. In fact, it won't. The truth is that in the game of war under the newest rules war correspondents aren't wanted. War col-

leges, great European tacticians, strategy boards—all the men and organizations in civilization, who lay down the rules for warfare, agree that war correspondents ought not to have a place in the game at all. In the English army war correspondents have no standing; they are not given places even for the annual maneuvers. The same is true in Germany and France. The vote of army men is unanimous that the war correspondent is dangerous, and must be done away with, as far as possible.

The United States, however, if war comes with Mexico, is going to try a new tack. The War Department's plan is to permit war correspondents to accompany the army but to place them in the rank of officers, subject to the slightest orders and wishes of the commander.

The hob that an observant and unchecked war correspondent can raise in war time is tremendous, in these days of the wireless. The smallest facts which he might send to his paper in some distant city regarding the movements or whereabouts of forces, is sure to be seized upon, when it is published, by some agent of the enemy, who will send the news around the world, if necessary to get it to the enemy.

The only way to check the war correspondent is by censorship. And so every word the war correspondent writes for the cable, every letter he writes home, to his mother, his sweetheart or his managing editor, will be passed upon by a censor.

On the other hand, the new regulations for war correspondents, provide that they may move about as they please inside the American lines and they particularly specify that, after the war is over and there is no further need of keeping facts from the enemy, the correspondent may cut loose and write as he pleases.

The specifications provide, particularly, that a war correspondent may entertain whatever opinions he pleases during warfare and that the specifications are not to be taken as meaning any interference with free thinking and full and complete note taking.

Incidentally, no correspondent who starts out with the field army, is to be permitted to return to the United States, without a special permission of the war department. This is to prevent any correspondent from yielding his place at the front in order to get back to the United States, with a story that might aid the enemy.

Grumpy, critical, dyspeptic men, who are inclined to think that the best kind of stories is the kind that criticizes and who throw the yellow light of bilious fault-finding instead of the white light of truth on the activities in the American camp, are not wanted. Fellows of this sort will be weeded out before credentials are given.

Jolly optimistic, goodnatured, healthy-minded, sensible, strong-

bodied young men, who know that war is war and that a general must win, even if a battle does turn into a rough and tumble fight, in which rules must be thrown to the winds and everything done to succeed—they're the kind of men who make the best war correspondents. They wind up, at the finish, with the best stories, the most truth, and the best personal records.

Faculty Object
(By United Press.)

Greencastle, Ind., June 12.—When it became noised about that DePauw eocods had been seen walking on the streets with gentlemen, the Methodist faculty did not like it. As a result the rules at the university have been made much stricter. A eocod may not have a date one night in the week in addition to the regular Sunday-night date and she may have callers one afternoon in the week, from 4 to 5. It is rumored that the girls have been made to promise that they will not try to break these rules. All this came with the consent and co-operation of the social committee.

Obituary.

Frank Ersle Ellison, second son of Alonzo P. and Belle Ellison, was born in Walker township, Rush county, May 5, 1893.

Frank passed through the common school and gave promise of a long and useful life. He was a boy to whom you easily became attached sociable, kind and lovable and as a young man he made friends with all whom he came in contact.

His mother died when he was six years old and when a step mother came into the home, he was a loyal, loving son as she proved a mother to him. Fond of the Bible school and church, his attendance was as regular as circumstances permitted. Although he never united with the church he many times expressed his desire and future expectation of accepting Christ as his Savior.

On June 4, 1914, with a brightened countenance and a sweet smile, his spirit passed into the beyond and we can safely leave him in the care of a loving Heavenly Father who knows our hearts and judges the intent of the mind. Frank was twenty-one years and one month of age when death called him.

He leaves his father, step-mother, one brother, one sister, one half-sister and two half-brothers in sorrow today. One brother with his mother having passed on before.

Card of Thanks.

We wish to thank our many friends and neighbors for their kindness and assistance given us during the sickness and death of our son and brother.

Why Not Pay More?
For Sherwin-Williams Paint
Than For Some Others

REASON No. 1—Because there is 20% more pigment in a gallon can and pigment costs more than oil.

REASON No. 2—Because the formula is on the can; you get just what you pay for—an honest paint.

REASON No. 3—There is no coal oil or cheap mineral oil in it.

REASON No. 4—It has stood the test for 60 years and more calls than any 3 mixed paint on the market.

Why, there must be a reason. Come in, let us talk paint to you.
